UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

January, 1946

Prepared by:
Office of Personnel
Division of Employment
March 7, 1946

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on January 31, 1946 was 61,134, an increase of 506 over December 31, 1945. Inside the Washington, D. C. Metropolitan Area there were 10,942, an increase of 621 over December 31, 1945. Outside the Washington, D. C. Metropolitan Area there were 50,192, a decrease of 115 for the same period. These figures apply to full-time regular (salaried and wage) and temporary (salaried and wage) employees only.

Total employment on January 31, 1946 was 86,697, an increase of 459 over December 31, 1945. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, W.O.C. employees, and part-time workers as well as those regularly employed.

The decrease in the number of temporary full-time employees in the Forest Service was due to the termination of seasonal projects, such as brush disposal and forest maintenance work.

The apparent decrease in the total employment of the Bureau of Dairy Industry and the increase in the Bureau of Entomology and Plant Quarantine over last month's figure was due to an error in reporting.

The increase in the number of regular full-time employees in the Soil Conservation Service was due to reemployment of returning veterans.

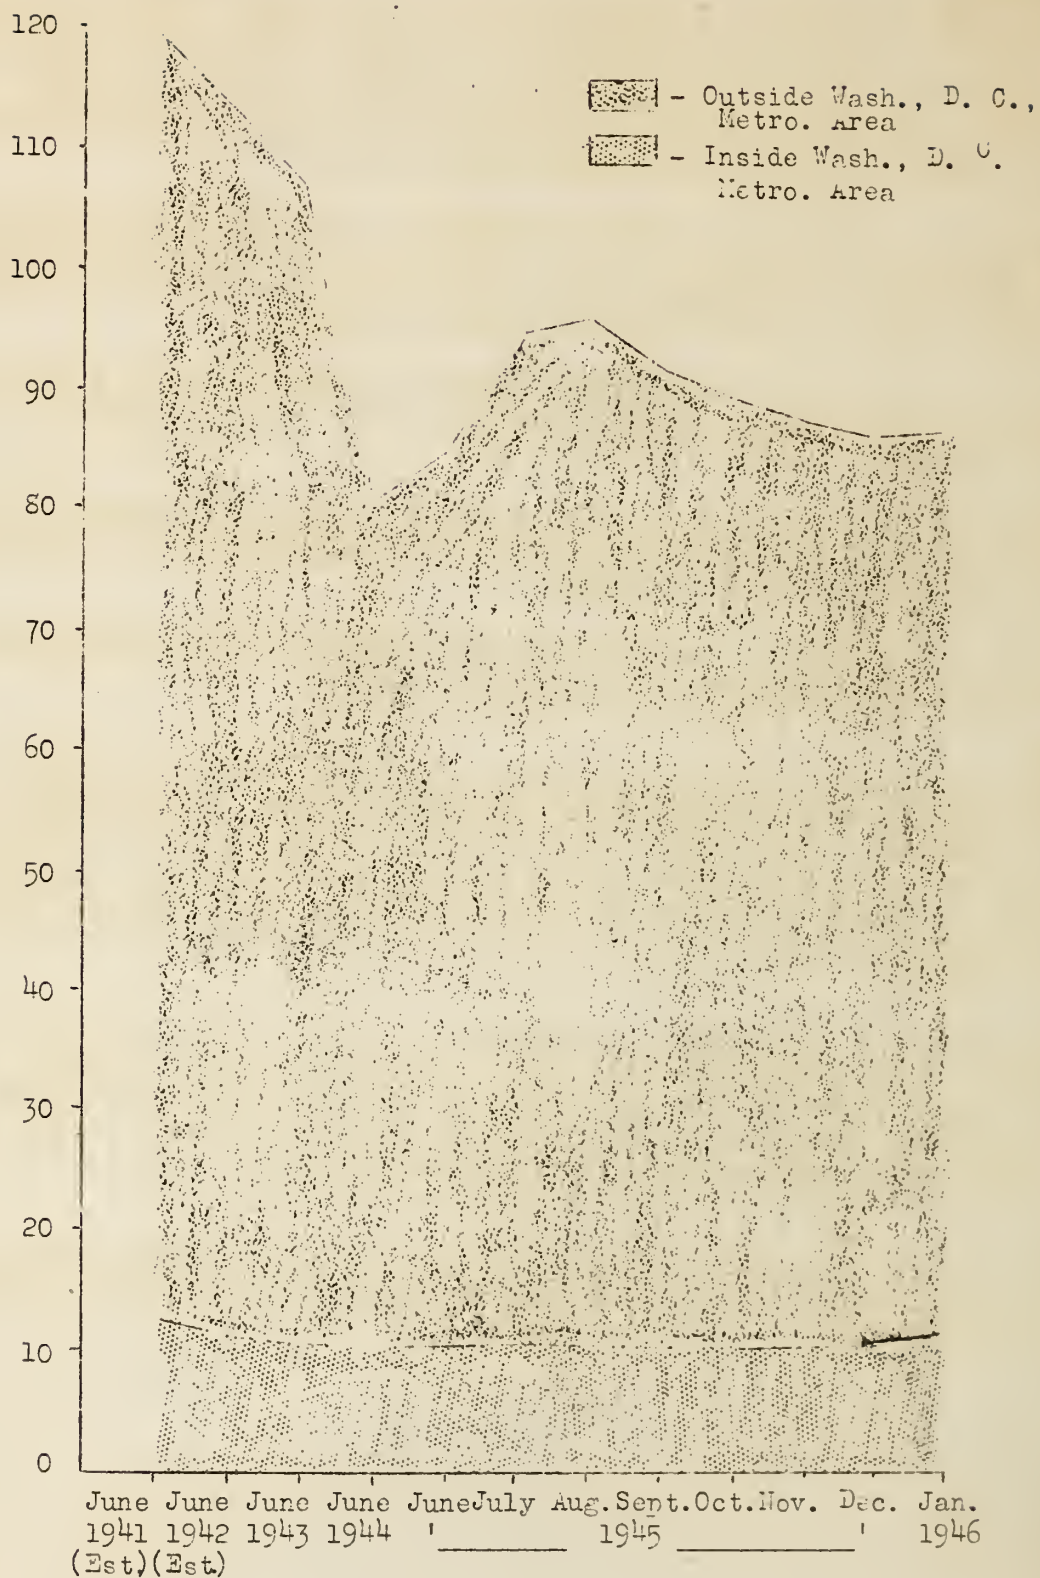

TURNOVER

The separations of total full-time personnel, including temporary as well as regular salaried employees, from the Department for January, 1946 totaled 3,117, or 5.1 percent, a decrease of 0.8 percent from December, 1945. There were 261 separations, or 2.5 percent in the Inside Washington, D. C. Metropolitan Area, an increase of 0.6 percent over December, 1945; and there were 2,856, or 5.7 percent for the Outside Washington, D. C. Metropolitan Area, a decrease of 1.1 percent from December, 1945.

The larger number of separations occurred in the Outside Washington, D. C. Metropolitan Area. The greater percentage fell in the resignation category. The specific reasons making up the resignation category are illness, returning to school, accepting positions in private industry, household duties, etc. The next larger number of separations was in the termination category and was due to the termination of temporary employees on seasonal projects.

Separations of total regular full-time personnel from the Department (excluding reduction in force and separations of temporary employees) for January, 1946 were 1,774 or 3.1 percent.

COMPARISON OF TOTAL EMPLOYMENT ^{1/}

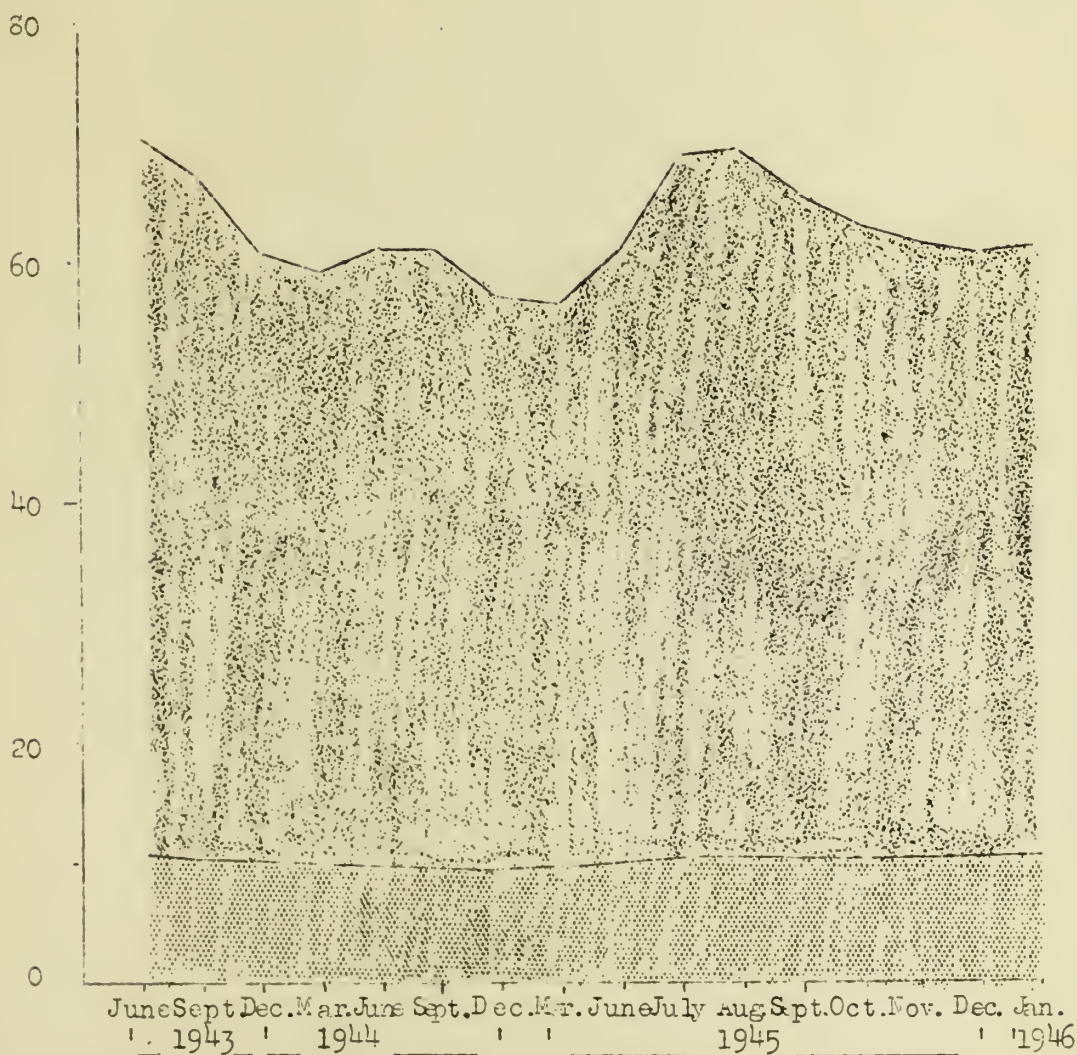

^{1/} Includes employees outside the continental limits of the U. S. and W. O. C. employees.

COMPARISON OF FULL-TIME EMPLOYMENT ^{1/}

Thousands of
Employees

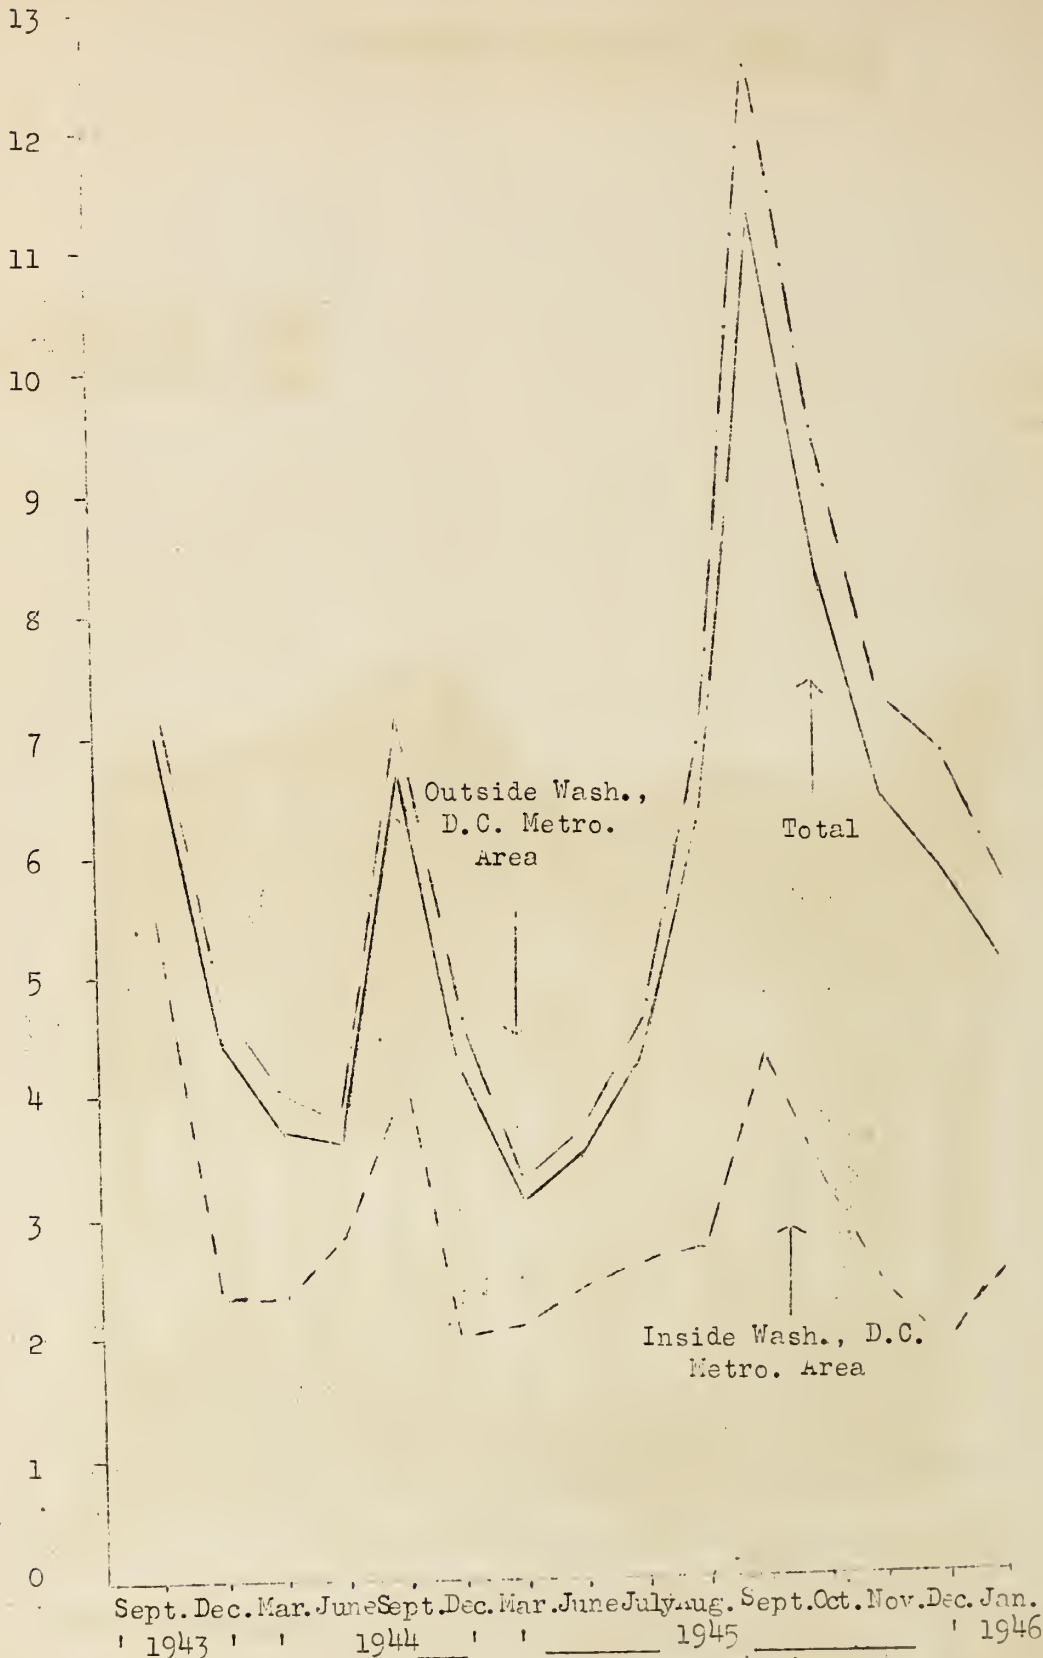

- Field Service
 - Departmental Serv.

^{1/} Excludes W. O. C. employees and employees outside continental limits of the United States.

TURNOVER OF FULL-TIME EMPLOYEES ^{1/}

Percent

^{1/} Excludes transfers between reporting units. Employees outside the Cont. limits of the U. S. are excluded. Full-time, according to the revised Civil Service Form 3257 includes only regular and temporary employees.

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the month of December. It will not agree with the resignation figure reported on line 20 of the GS Form 3757.

2/ Reasons making up this category are: Desires Perm. Empl.; To Work in Private Ind.; Bus. for Self; Former Trade or Job.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.
3. Temporary employees are those formally engaged for a specific period of time not to exceed one year.
4. Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.
5. W.A.E. (when actually employed) represents those paid only for the time actually worked.
6. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
7. Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)
8. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
9. Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.
10. Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

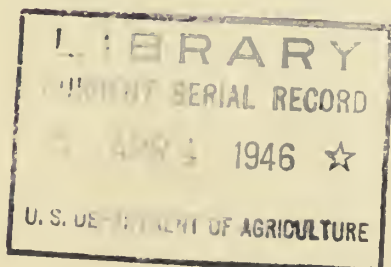

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)
2. All persons on leave without pay during the entire period covered by report.
3. Casual employees (those employees hired informally by pick-up "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

February, 1946

Prepared by:
Office of Personnel
Division of Employment
March , 1946

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on February 28, 1946 was 61,732 an increase of 598 over January 31, 1946. Inside the Washington, D. C. Metropolitan Area there were 11,228, an increase of 286 over January 31, 1946. Outside the Washington, D. C. Metropolitan Area there were 50,504, an increase of 312 for the same period. These figures apply to full-time regular (salaried and wage) and temporary (salaried and wage) employees only.

Total employment on February 28, 1946 was 87,323, an increase of 626 over January 31, 1946. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, W.O.C. employees, and part-time workers as well as those regularly employed.

The increase in the Forest Service occurred in the category of other than full-time employees employed mainly in the southern regions due to the opening of the fire season.

The increase in the number of regular full-time employees in the Soil Conservation Service was due to reemployment of returning veterans.

The apparent increase in the number of full-time employees in Rural Electrification Administration inside the D. C. Metropolitan Area was occasioned by the recentralization of the Rural Electrification Administration.

TURNOVER

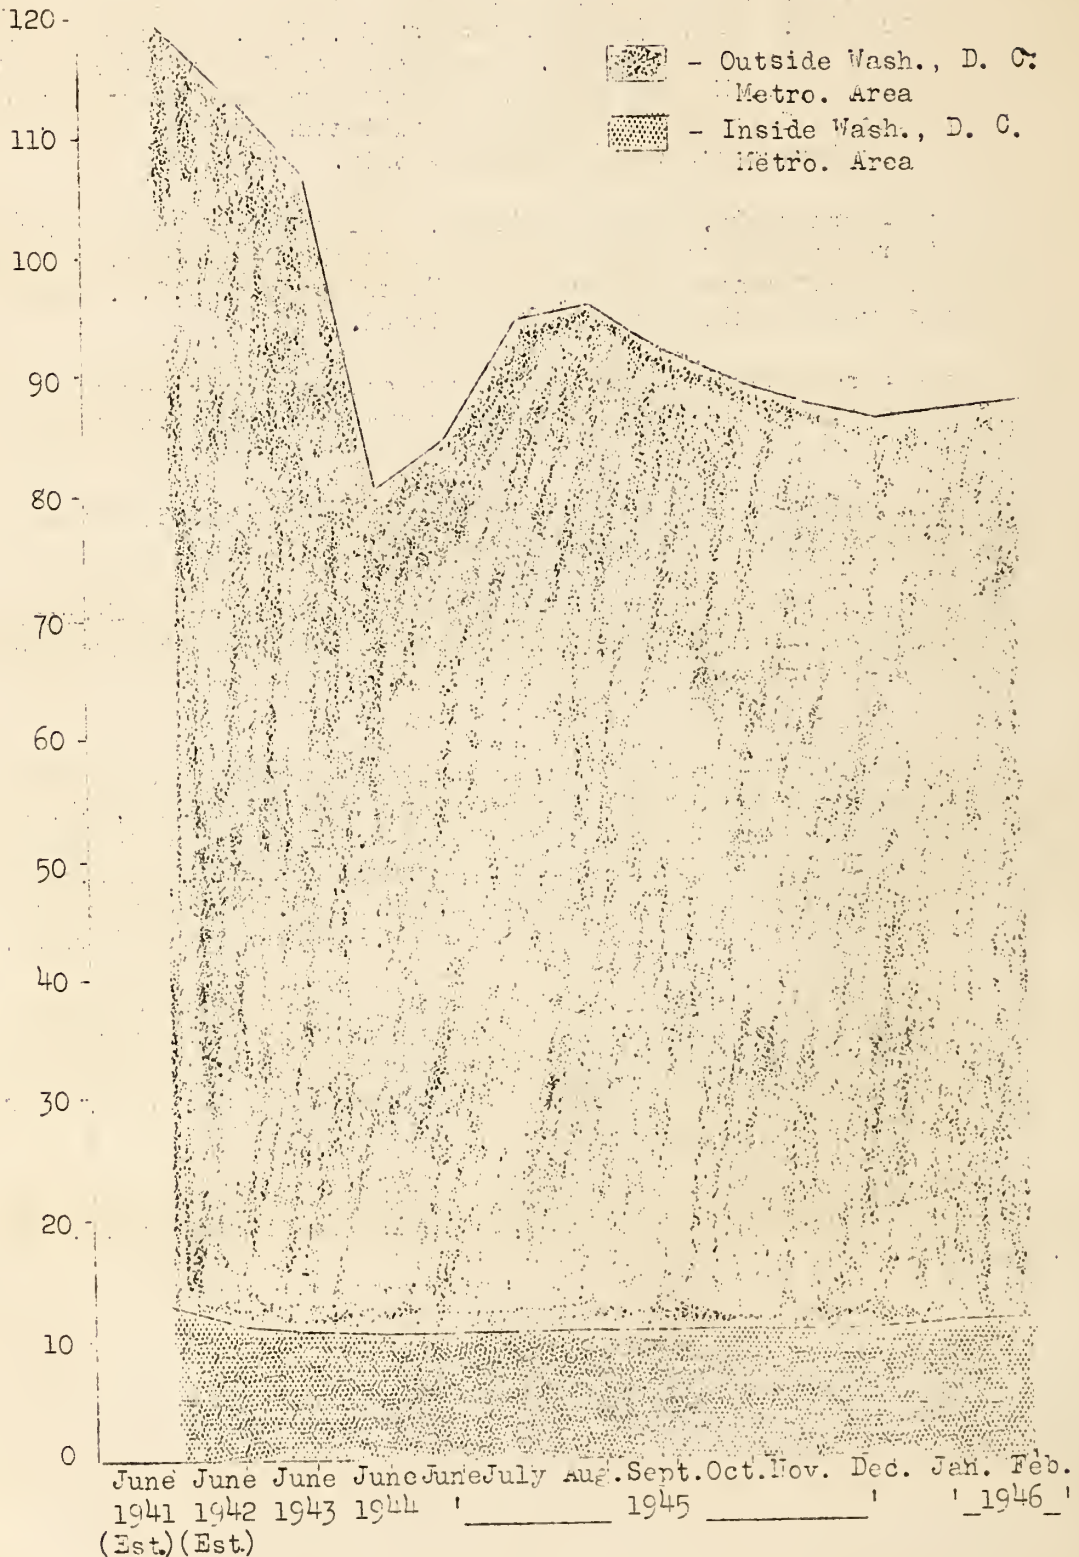

The separations of total full-time personnel, including temporary as well as regular salaried employees, from the Department for February, 1946 totaled 2,045, or 3.3 percent, a decrease of 1.8 percent from January, 1946. There were 287 separations, or 2.6 percent in the Inside Washington, D. C. Metropolitan Area, an increase of 0.1 percent over January, 1946; and there were 1,758, or 3.5 percent for the Outside Washington, D. C. Metropolitan Area, a decrease of 2.2 percent from January, 1946.

The greater percentage of the separations fell in the resignation category. The specific reasons making up the resignation category are illness, returning to school, accepting positions in private industry, household duties, etc. The next larger number of separations was in the termination category and was due to the termination of temporary employees on seasonal projects.

Separations of total regular full-time personnel from the Department (excluding reduction in force and separations of temporary employees) for February, 1946 were 1,254 or 2.2 percent.

COMPARISON OF TOTAL EMPLOYMENT ^{1/}

Thousands of
Employees

^{1/} Includes employees outside the continental limits of the U. S. and W.O.C. employees.

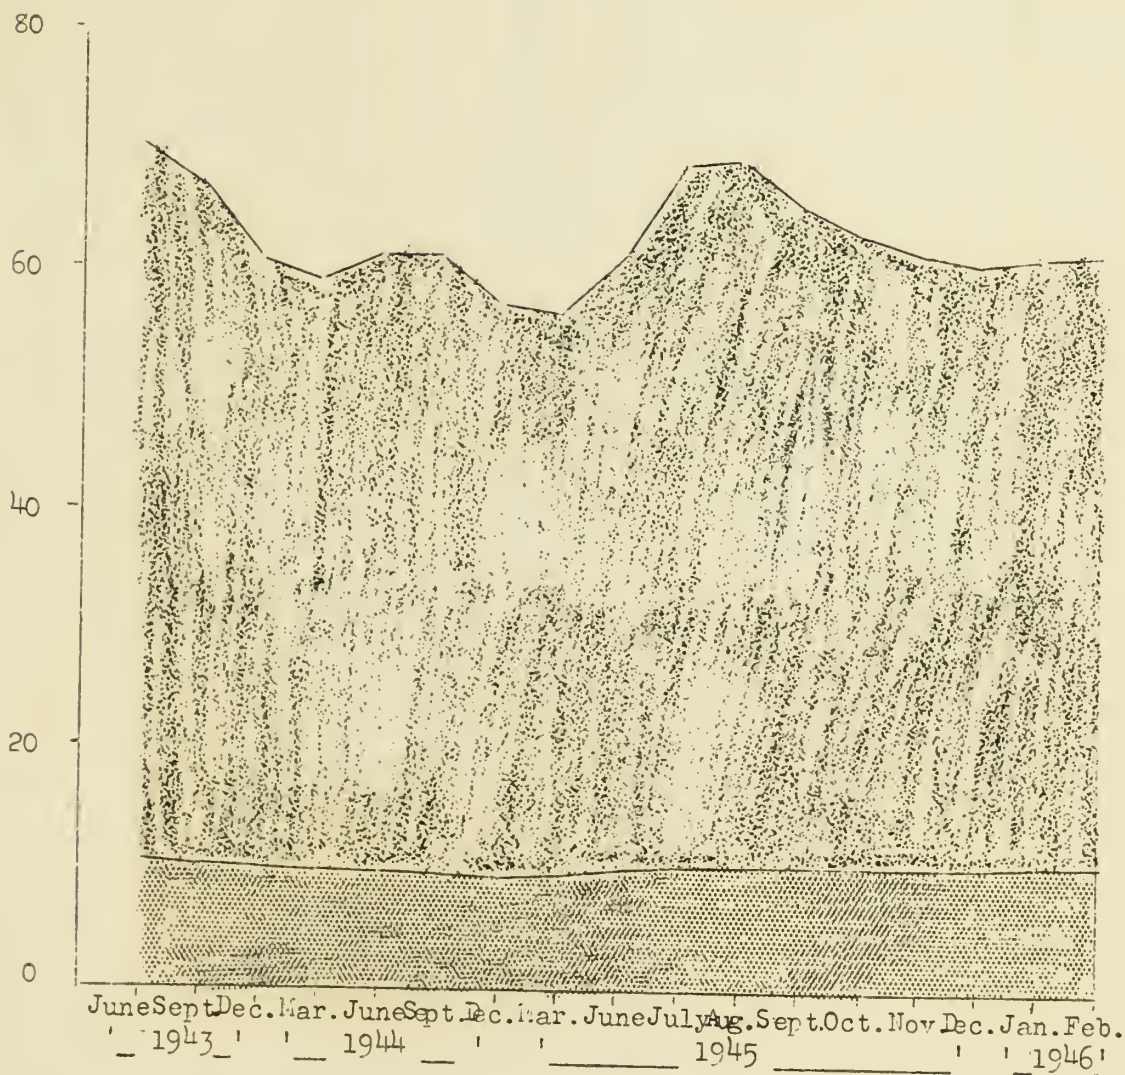

COMPARISON OF FULL-TIME EMPLOYMENT 1/

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the month of January. It will not agree with the resignation figure reported on Line 20 of the CS Form 3257.

2/ Reasons making up this category are: Desire Perm Empl.; To work in Private Ind.; Bus. for Self; Former Trade or Job.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

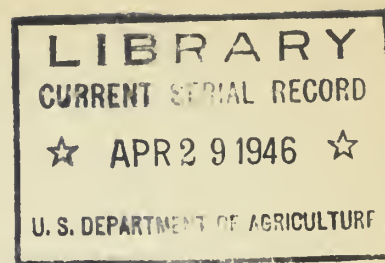

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.
3. Temporary employees are those formally engaged for a specific period of time not to exceed one year.
4. Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.
5. W.A.E. (when actually employed) represents those paid only for the time actually worked.
6. W.C.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
7. Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)
8. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
9. Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.
10. Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY INCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)
2. All persons on leave without pay during the entire period covered by report.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trial work emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

Explanatory Note

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

THIRD QUARTER, FISCAL YEAR, 1946

Full-time employment within the continental limits of the United States on March 31, 1946 was 62,407, an increase of 1,780 over December 31, 1945. The Inside Washington, D. C. Metropolitan Area was increased by 1,103 and the Outside Washington, D. C. Metropolitan Area was increased by 677. Most of the increase in the Inside Washington, D. C. Metropolitan Area occurred during the months of January and February and was due to the recentralization of the Rural Electrification Administration. The increase in the Outside Washington, D. C. Metropolitan Area occurred gradually over the three-month period and was due mainly to reemployment of returning veterans in the Soil Conservation Service. The increase in the full-time employment in the field in the Bureau of Entomology and Plant Quarantine during the month of March was due mainly to employment of employees to carry on the Blister Rust Control Program and the Foreign Plant Quarantine project.

Total employment on March 31, 1946 was 85,865, a decrease of 373 from December 31, 1945. The Inside Washington, D. C. Metropolitan Area was increased by 1,053 and the Outside Washington, D. C. Metropolitan Area decreased by 1,426. During this quarter, employment other than full-time decreased by 2,100 and employment outside the continental limits of the United States was decreased by 85.

MARCH, 1946

On March 31, 1946 there were 62,407 full-time employees within the continental limits of the United States, an increase of 675 over February 28, 1946. The Inside Washington, D. C. Metropolitan Area carried 11,424, an increase of 196; and the Outside Washington, D. C. Metropolitan Area showed 50,983, an increase of 479 for the same period.

The decrease in other than full-time employment in the Farm Security Administration was due to the curtailment of an agreement between the Veterans' Administration and the Department of Agriculture for the rendering of certain services under Title II of the Servicemen's Readjustment Act. The termination of this agreement discontinued the services of 2,839 Farm Security Administration Certifying Committeemen.

The increase in other than full-time in the Soil Conservation Service was due mainly to reemployment of returning veterans, and in the Forest Service to the opening of the fire seasons in California and the southern states.

Total employment on March 31, 1946 was 85,865, a decrease of 1,458 from February 28, 1946. Inside the Washington, D. C. Metropolitan Area there were 11,699, an increase of 174; and 74,166 for the Outside Washington, D. C. Metropolitan Area, a decrease of 1,632 for the same period. These figures apply to total employment in the Department including employees outside the continental limits of the U. S. and part-time workers as well as those regularly employed.

CASUAL EMPLOYEES

Casual employees (not included in the regular monthly reports of employment) are reported whenever complete information is received. For the month of February, 1946, there were 4,035 casual employees in the Department, representing an increase of 871 over the December, 1945 figure. The Forest Service was the only bureau with Casual employees during February.

FEMALE EMPLOYEES

THIRD QUARTER, FISCAL YEAR, 1946

There was a decrease of 698 regular full-time female employees in the Department

from December 31, 1945. The number of regular full-time female employees, 21,546 on March 31, 1946 represent 34.5 percent of total regular full-time employees, a decrease of 2.2 percent from December 31, 1945 figure. Production and Marketing Administration carried the major portion of the decrease with a loss of 418 female employees.

PERSONNEL TURNOVER

THIRD QUARTER, FISCAL YEAR, 1946

Accessions of regular full-time employees totaled 9,140 during the quarter ending March 31, 1946, excluding transfers between reporting units. There were 599 transfers from other departments and agencies, 4,035 appointments and reemployments, 4,103 returns from military furlough, and 403 of all other types. Returns from Military Furlough represent 44.9 percent of all accessions to the Department. The accession rate of full-time personnel in regular groups for the third quarter of the fiscal year, 1946 was 14.9 percent. This represents an increase of 1.9 percent over the accession rate of 13.0 percent for the second quarter, fiscal year, 1946. Altho this rate is used by the Civil Service Commission and apparently appears high, it is due to the separation of temporary employees and separations by reduction in force.

Separations of regular full-time personnel from the Department amounted to 7,504 during the third quarter and consisted of 3,085 resignations; 1,894 terminations, 29 military furloughs; 888 extended leave without pay, furlough, suspensions, war transfers, and leave without pay; and 1,608 of all other types. The separation rate for the same period was 12.2 percent, indicating an excess of accessions over separations of 2.7 percent. The rates for the Inside Washington, D. C. Metropolitan Area were: Accessions, 12.3 percent; and separations, 7.2 percent, an excess of accessions over separations of 5.1 percent. The rates for the Outside Washington, D. C. Metropolitan Area were: Accessions, 16.6 percent; separations, 13.2 percent, an excess of accessions of 3.4 percent.

The turnover rate excluding the separation of temporary personnel and the separations due to reduction in force for the third quarter of the fiscal year 1946 was 7.5 percent; and for the month of March, 2.7 percent.

MILITARY FURLOUGHES

The total number of employees serving in the armed forces was 9,952 as of March 31, 1946. This figure includes the female employees serving in the armed forces and employees who left to join the Merchant Marine Service. Of the 9,952 serving, 19.7 percent are in the Farm Security Administration; 14.7 percent are in the Soil Conservation Service; 27.1 percent are in the Production and Marketing Administration; and 11.2 percent in the Forest Service. During the month of March, 1946, 1,138 employees returned to their positions in the Department. Nine employees were known definitely to be deceased during the month of March, 1946.

PROMOTIONS

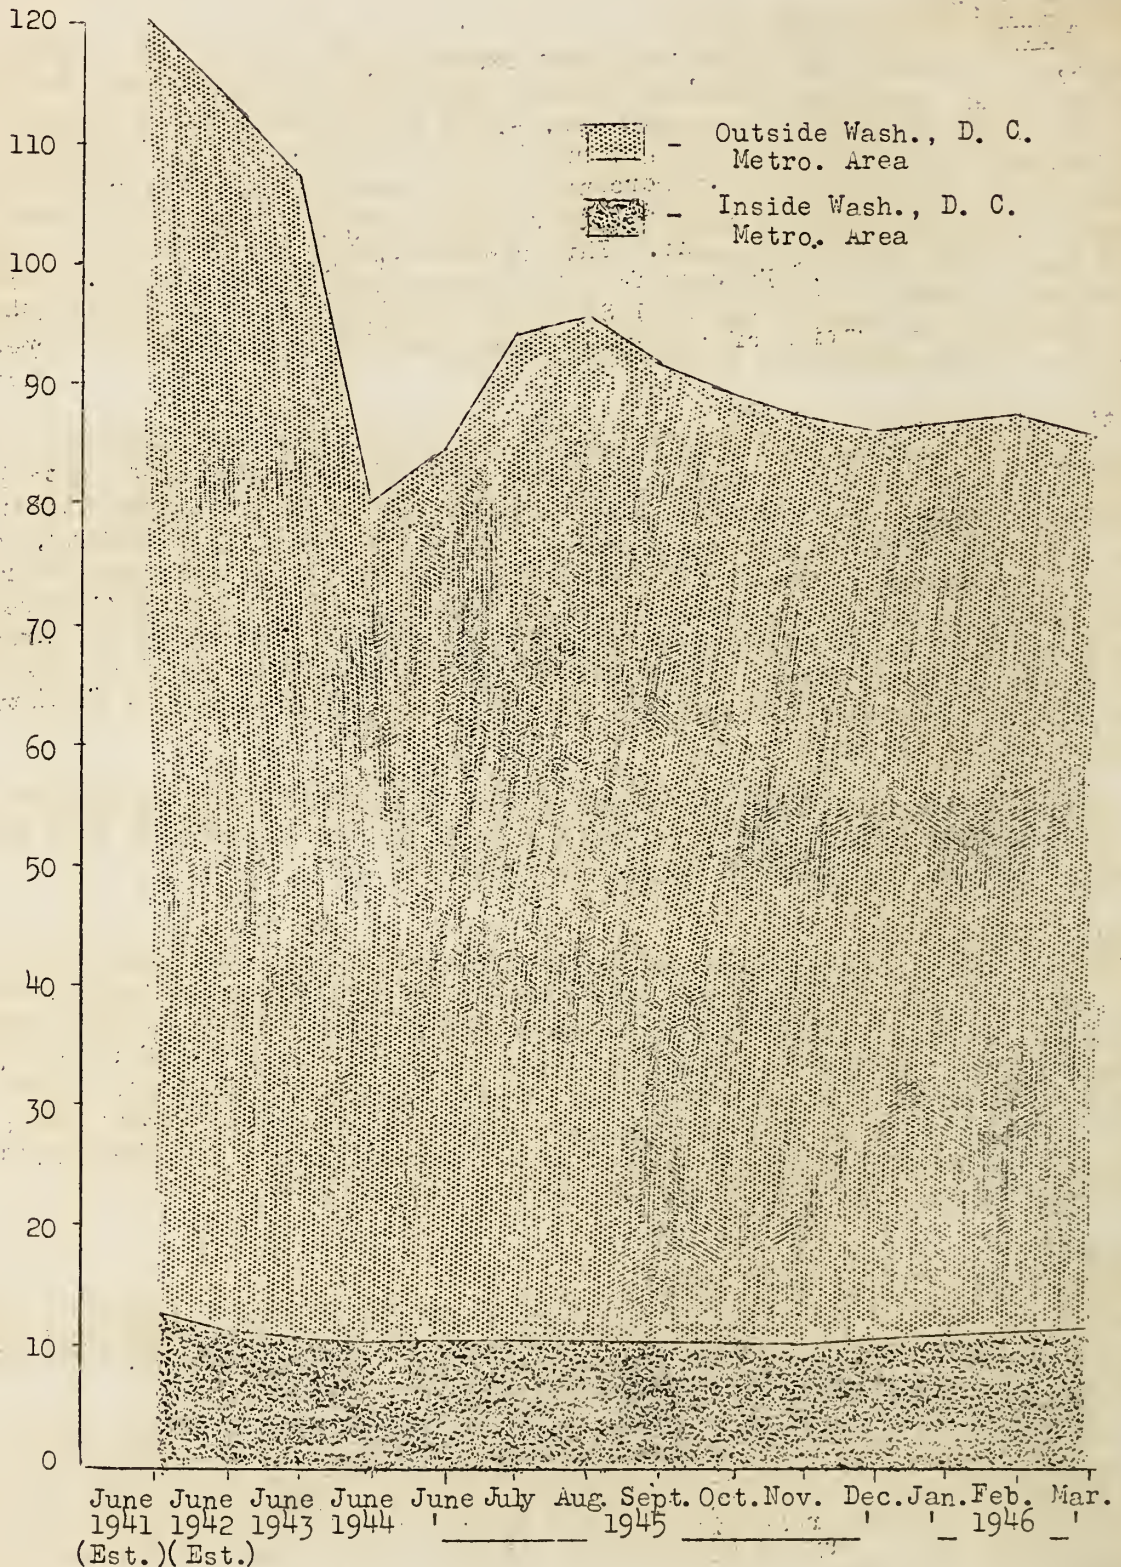

THIRD QUARTER, FISCAL YEAR, 1946

A total of 1,929 grade, or grade and salary promotions, among employees subject to the Classification Act of 1923, as amended, and employees in DA grades, was granted during the third quarter of the fiscal year, 1946. This represents an average of 643 grade or grade and salary promotions for one month.

On the basis of total grade, or grade and salary promotions granted during the quarters, and the average number of employees for the same period, one out of every 34 was recipient of one of the promotions. One out of every 29 in the CAF service received a promotion, as did one out of every 39 in the Professional service, one out of every 57 in the Sub-professional service, one out of every 51 in the CPC service, and one out of every 27 in the group designated as "Not Otherwise Classified."

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the month of February. It will not agree with the resignation figure reported on line 20 of the CS Form 3257.

2/ Reasons making up this category are: Desires Perm Empl.; To work in Private Ind.; Bus. for Self; Former Trade or Job.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.

Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.

Temporary employees are those formally engaged for a specific period of time not to exceed one year.

Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.

W.A.E. (when actually employed) represents those paid only for the time actually worked.

W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)

Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)

Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.

Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.

Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)

2. All persons on leave without pay during the entire period covered by report.

3. Casual employees (those employees hired informally by nickname "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.

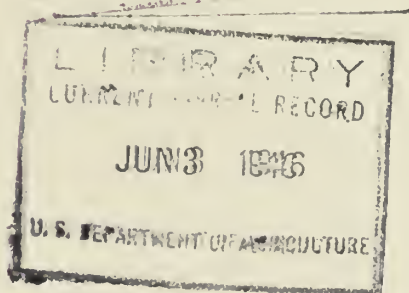

4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, RFA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

April, 1946

Prepared by:
Office of Personnel
Division of Employment
May 27, 1946

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.
3. Temporary employees are those formally engaged for a specific period of time not to exceed one year.
4. Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.
5. W.A.E. (when actually employed) represents those paid only for the time actually worked.
6. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
7. Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)
8. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
9. Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.
10. Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)
2. All persons on leave without pay during the entire period covered by report.
3. Casual employees (those employees hired informally by pick-up "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trial work emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on April 30, 1946 was 63,370, an increase of 963 over March 31, 1946. Inside the Washington, D. C. Metropolitan Area there were 11,538, an increase of 114 from March 31, 1946. Outside the Washington, D. C. Metropolitan Area there were 51,832, an increase of 349 for the same period. These figures apply to full-time regular (salaried and wage) and temporary (salaried and wage) employees only.

Total employment on April 30, 1946 was 87,632, an increase of 1,767 over March 31, 1946. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, W.O.C. employees, and part-time workers as well as those regularly employed.

The increase in employment occurred in large part in the Forest Service, the Soil Conservation Service and the Bureau of Entomology and Plant Quarantine. The Forest Service added to the number of temporary full-time and other than full-time employees to carry on the maintenance and construction of roads and the forest fire control work. The increase in the number of regular full-time and other than full-time employees in the Soil Conservation Service was due to the reemployment of returning veterans. The increase in employment in the Bureau of Entomology and Plant Quarantine was due to the opening of the Blister Rust camps in the middle west and western regions.

TURNOVER

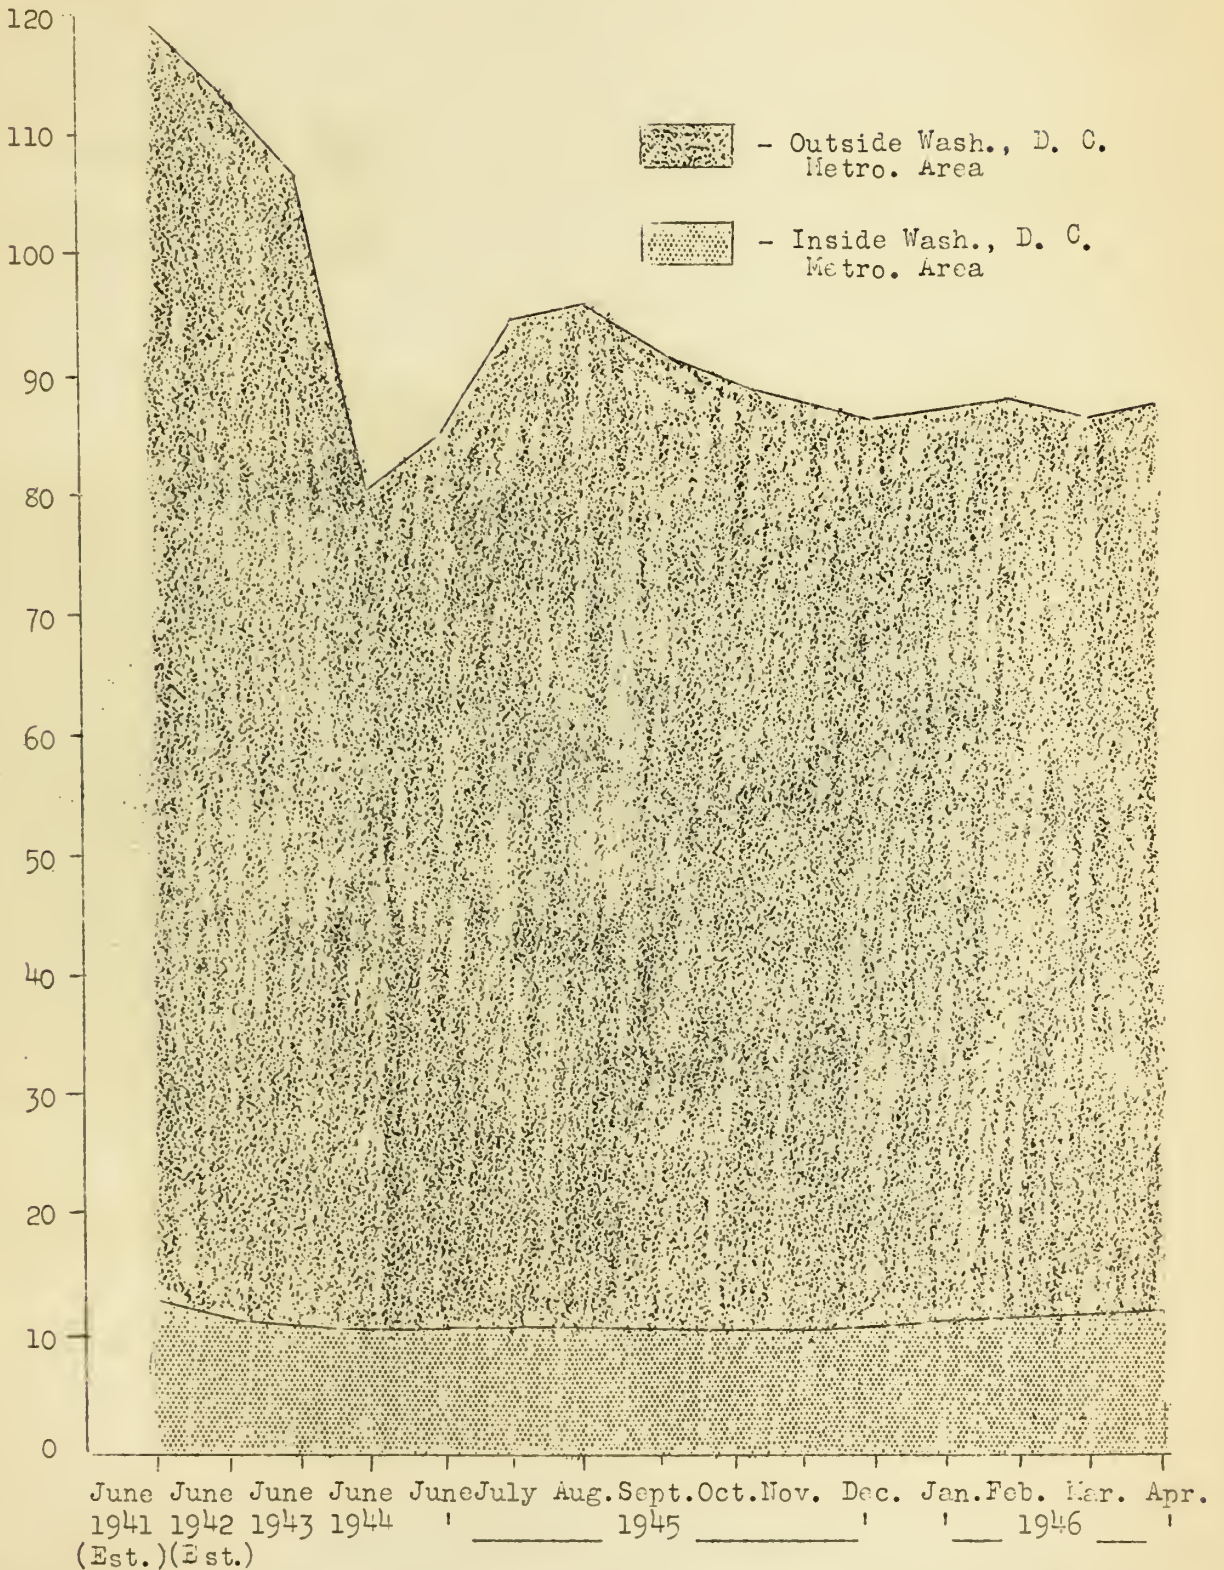

The separations of total full-time personnel, including temporary as well as regular salaried employees, from the Department for April, 1946 totaled 2,502, or 4.0 percent, an increase of 0.2 percent over March, 1946. There were 327 separations, or 2.8 percent in the Inside Washington, D. C. Metropolitan Area, an increase of 0.2 percent over March, 1946; and there were 2,175, or 4.2 percent for the Outside Washington, D. C. Metropolitan Area, an increase of 0.2 percent over March, 1946.

The greater percentage of the separations fell in the resignation category. The specific reasons making up the resignation category are illness, returning to school, accepting positions in private industry, household duties, etc. The next larger number of separations was in the termination category and was due to the expiration of temporary appointments.

Separations of total regular full-time personnel from the Department (excluding reductions in force and separations of temporary employees) for April, 1946 was 1,239, representing a 2.5 percent turnover.

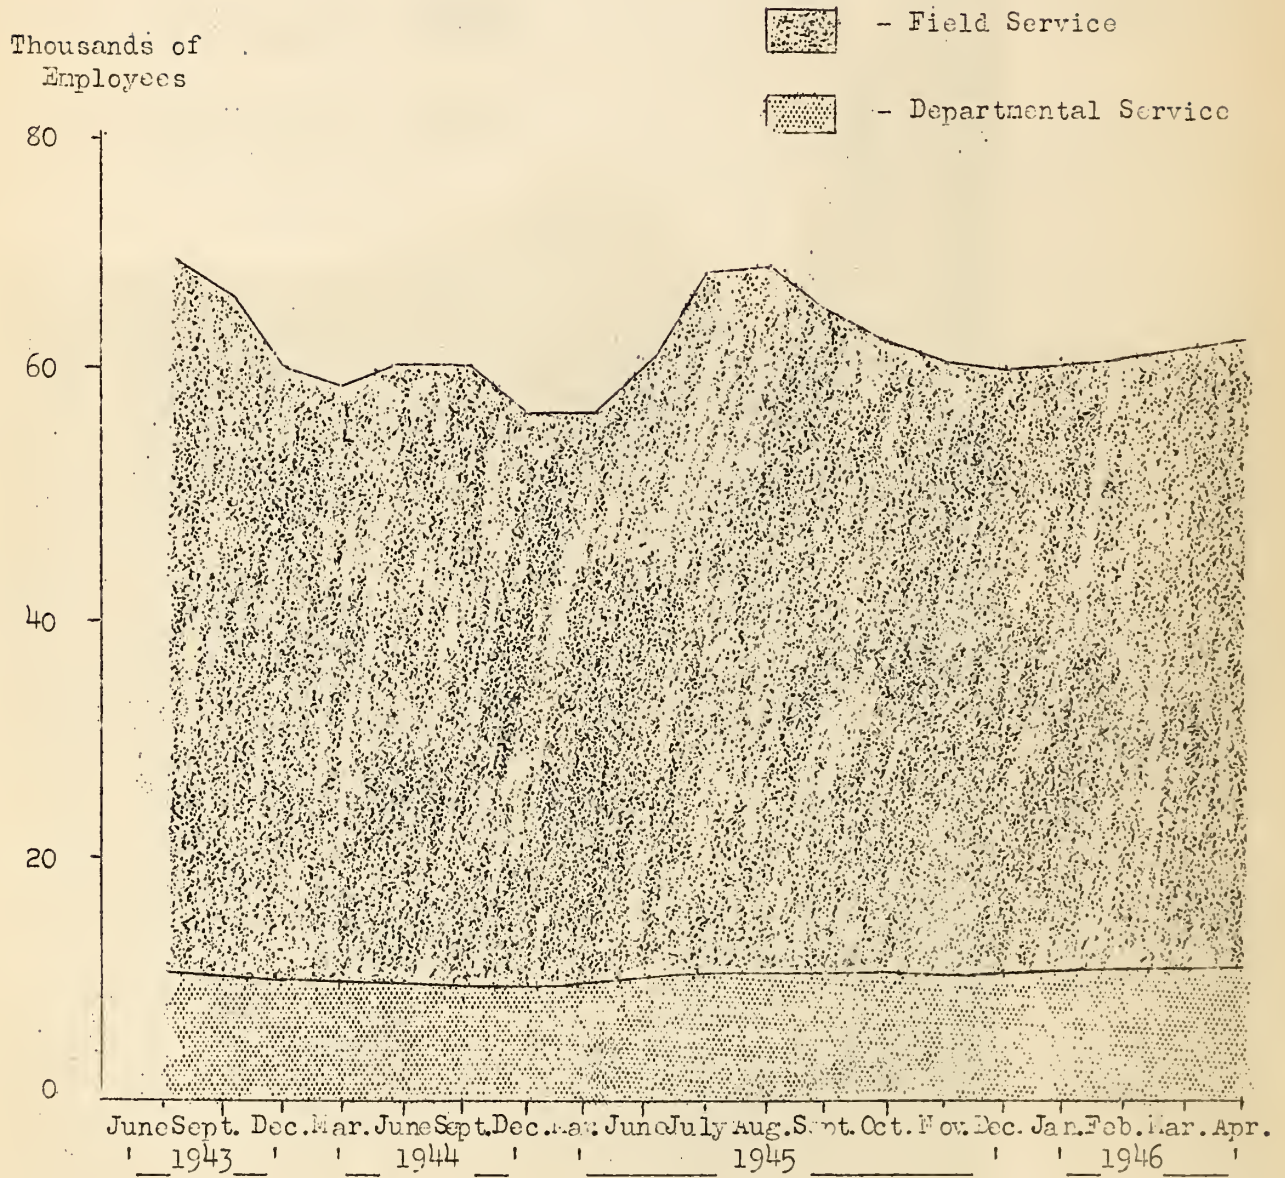

COMPARISON OF TOTAL EMPLOYMENT 1/

Thousands of
Employees

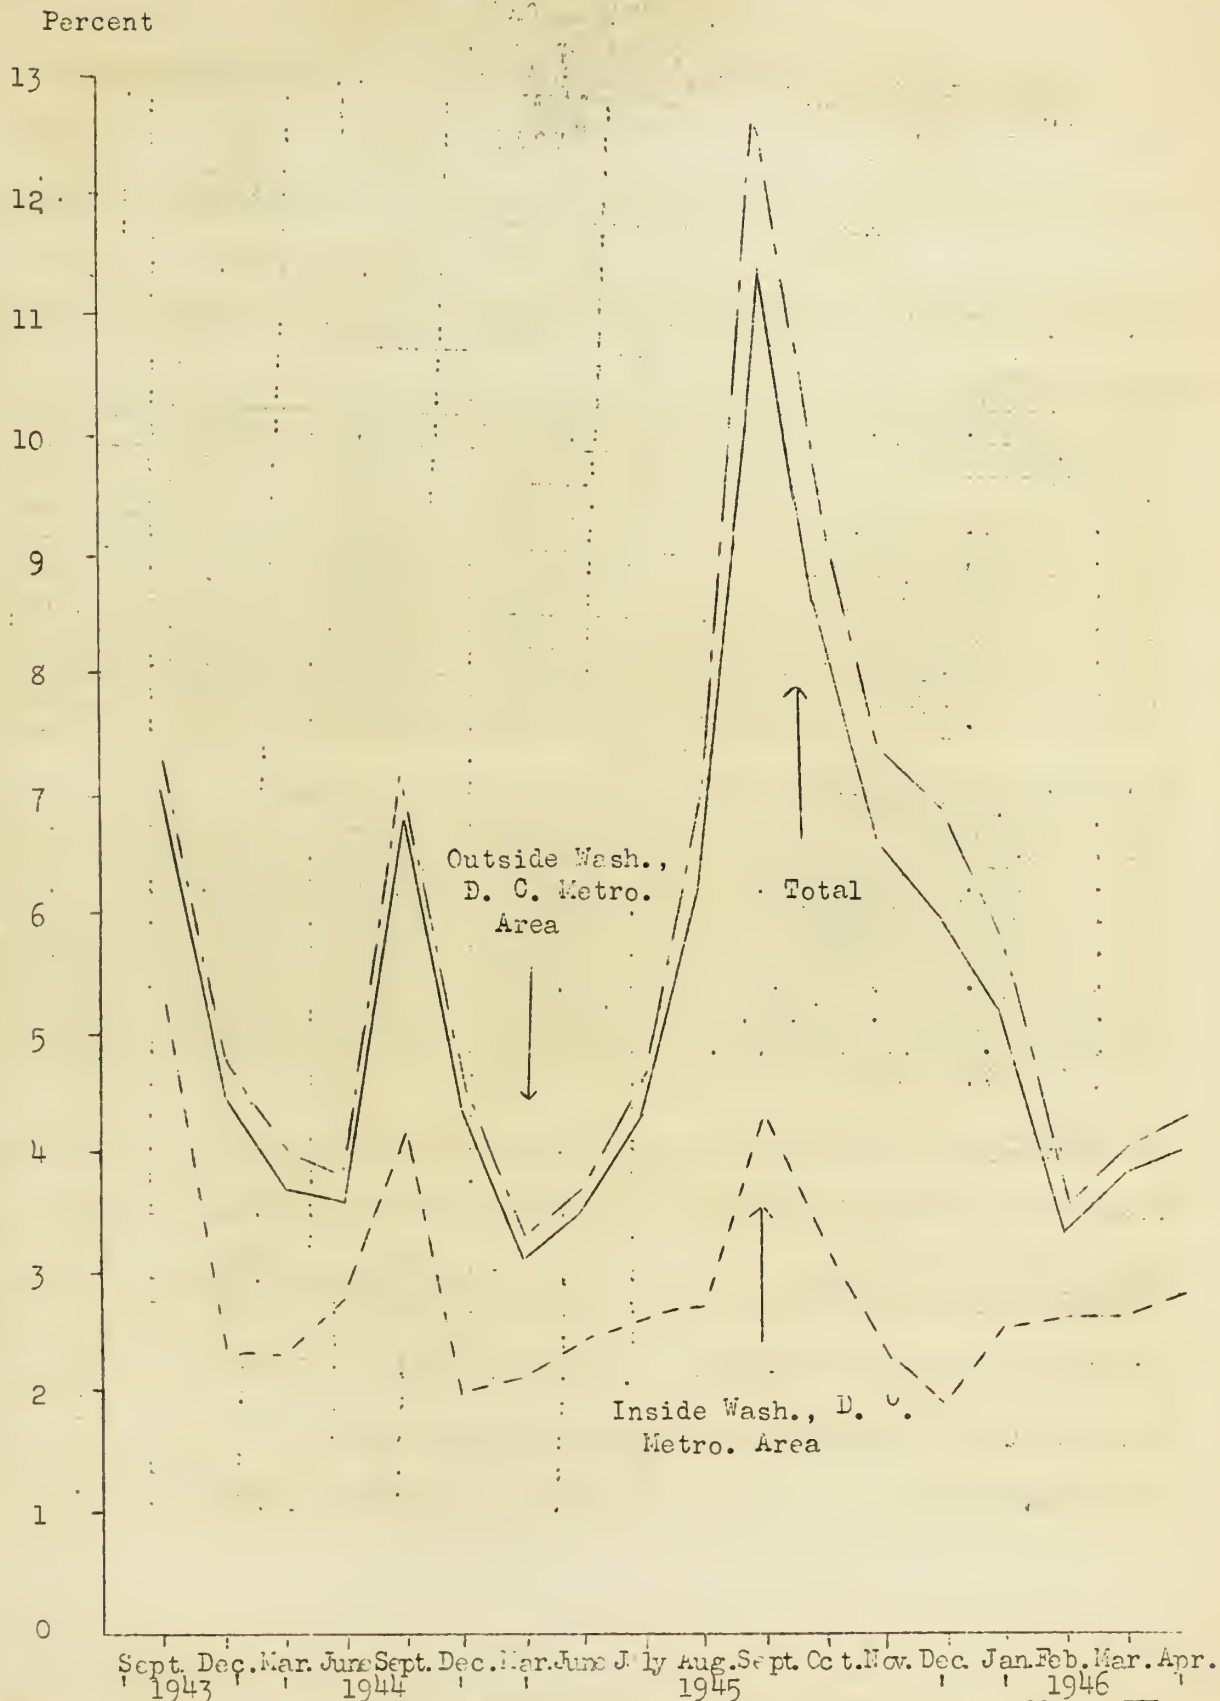

1/ Includes employees outside the continental limits of the U. S. and W. O. C. employees.

COMPARISON OF FULL-TIME EMPLOYMENT ^{1/}

^{1/} Excludes W.O. C. Employees and employees outside continental limits of the U. S.

TURNOVER OF FULL-TIME EMPLOYEES ^{1/}

^{1/} Excludes transfers between reporting units. Employees outside the Cont. limits of the U. S. are excluded. Full-time, according to the revised Civil Service Form 3257 includes only regular and temporary employees.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

May, 1946

Prepared by:
Office of Personnel
Division of Employment
July 2, 1946

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on May 31, 1946 was 66,103, an increase of 2,733 over April 30, 1946. Inside the Washington, D. C. Metropolitan Area there were 11,656, an increase of 118 over April 30, 1946. Outside the Washington, D. C. Metropolitan Area there were 54,447, an increase of 2,615 for the same period. These figures apply to full-time regular (salaried and wage) and temporary (salaried and wage) employees only.

Total employment on May 31, 1946 was 92,273, an increase of 4,641 over April 30, 1946. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, W.O.C. employees, and part-time workers as well as those regularly employed.

The increase in employment occurred in large part in the Forest Service, the Bureau of Entomology and Plant Quarantine, the Production and Marketing Administration, and the Soil Conservation Service. The Forest Service added to the number of temporary full-time and other than full-time employees to carry on the maintenance and construction of roads and the forest fire control work. The increase in the number of temporary full-time and other than full-time employees in the Bureau of Entomology and Plant Quarantine was due to the opening of Blister Rust camps. The Production and Marketing Administration opened temporary Labor camps. The Soil Conservation Service increase was due to the reemployment of returning veterans.

TURNOVER

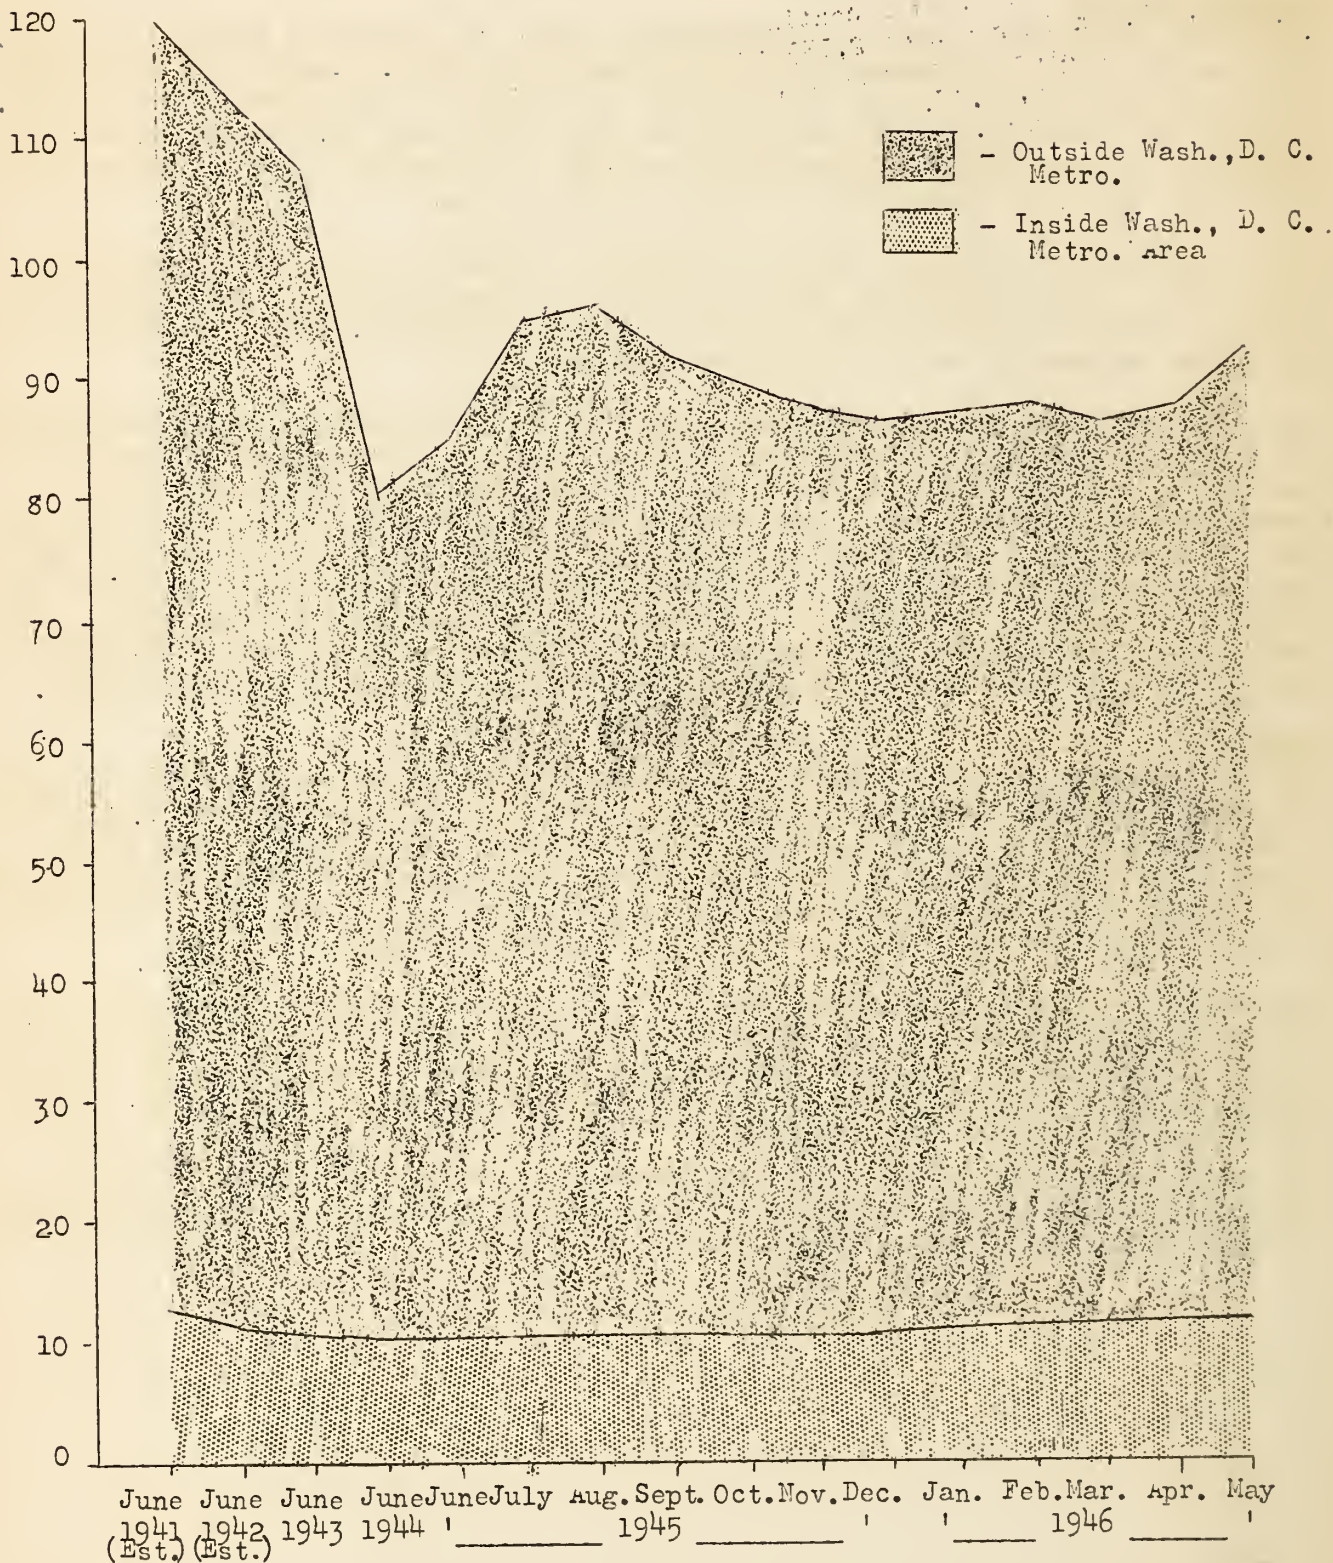

The separations of total full-time personnel, including temporary as well as regular salaried employees, from the Department for May, 1946 totaled 2,268 or 3.5 percent, a decrease of 0.5 percent from April, 1946. There were 301 separations, or 2.6 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 0.2 percent from April, 1946; and there were 1,967, or 3.7 percent for the Outside Washington, D. C. Metropolitan Area, a decrease of 0.5 from April, 1946.

The greater percentage of the separations fell in the resignation category. The specific reasons making up the resignation category are illness, returning to school, accepting positions in private industry, household duties, etc. The next larger number of separations occurred in the termination category and was caused by the expiration of temporary appointments.

Separations of total regular full-time personnel from the Department (excluding reductions in force and separations of temporary employees) for May, 1946 was 1,411, representing a 2.4 percent turnover.

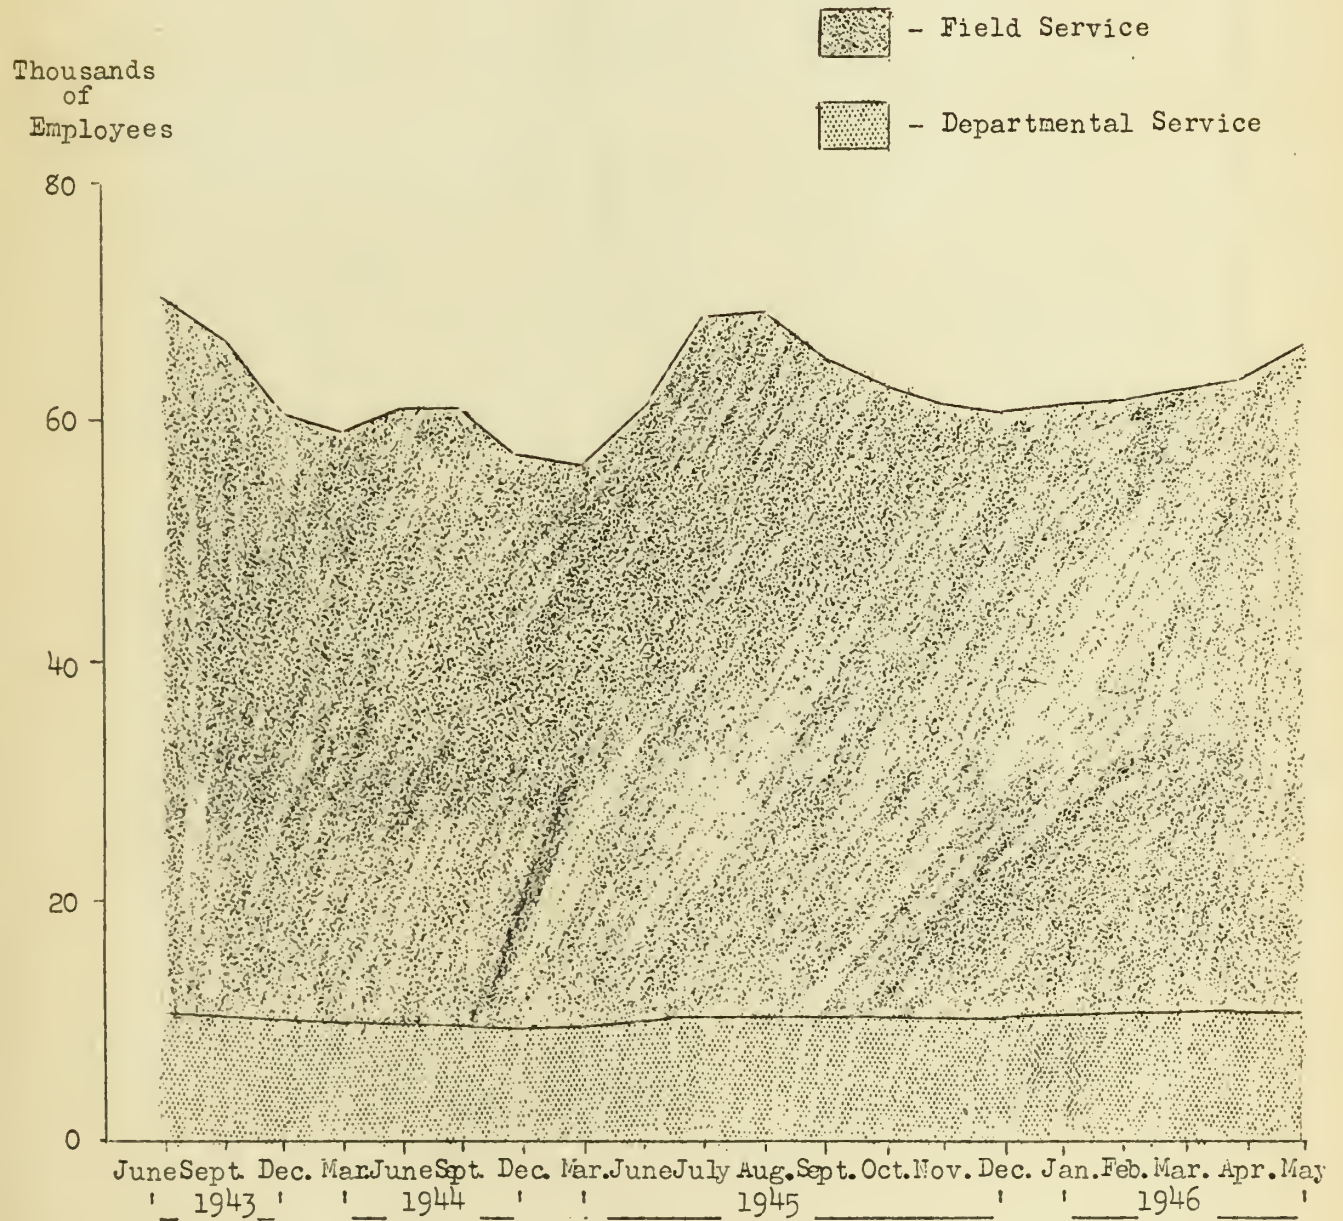

COMPARISON OF TOTAL EMPLOYMENT 1/

Thousands of
Employees

1/ Includes employees outside the continental limits of the U. S. and W. O. C. employees.

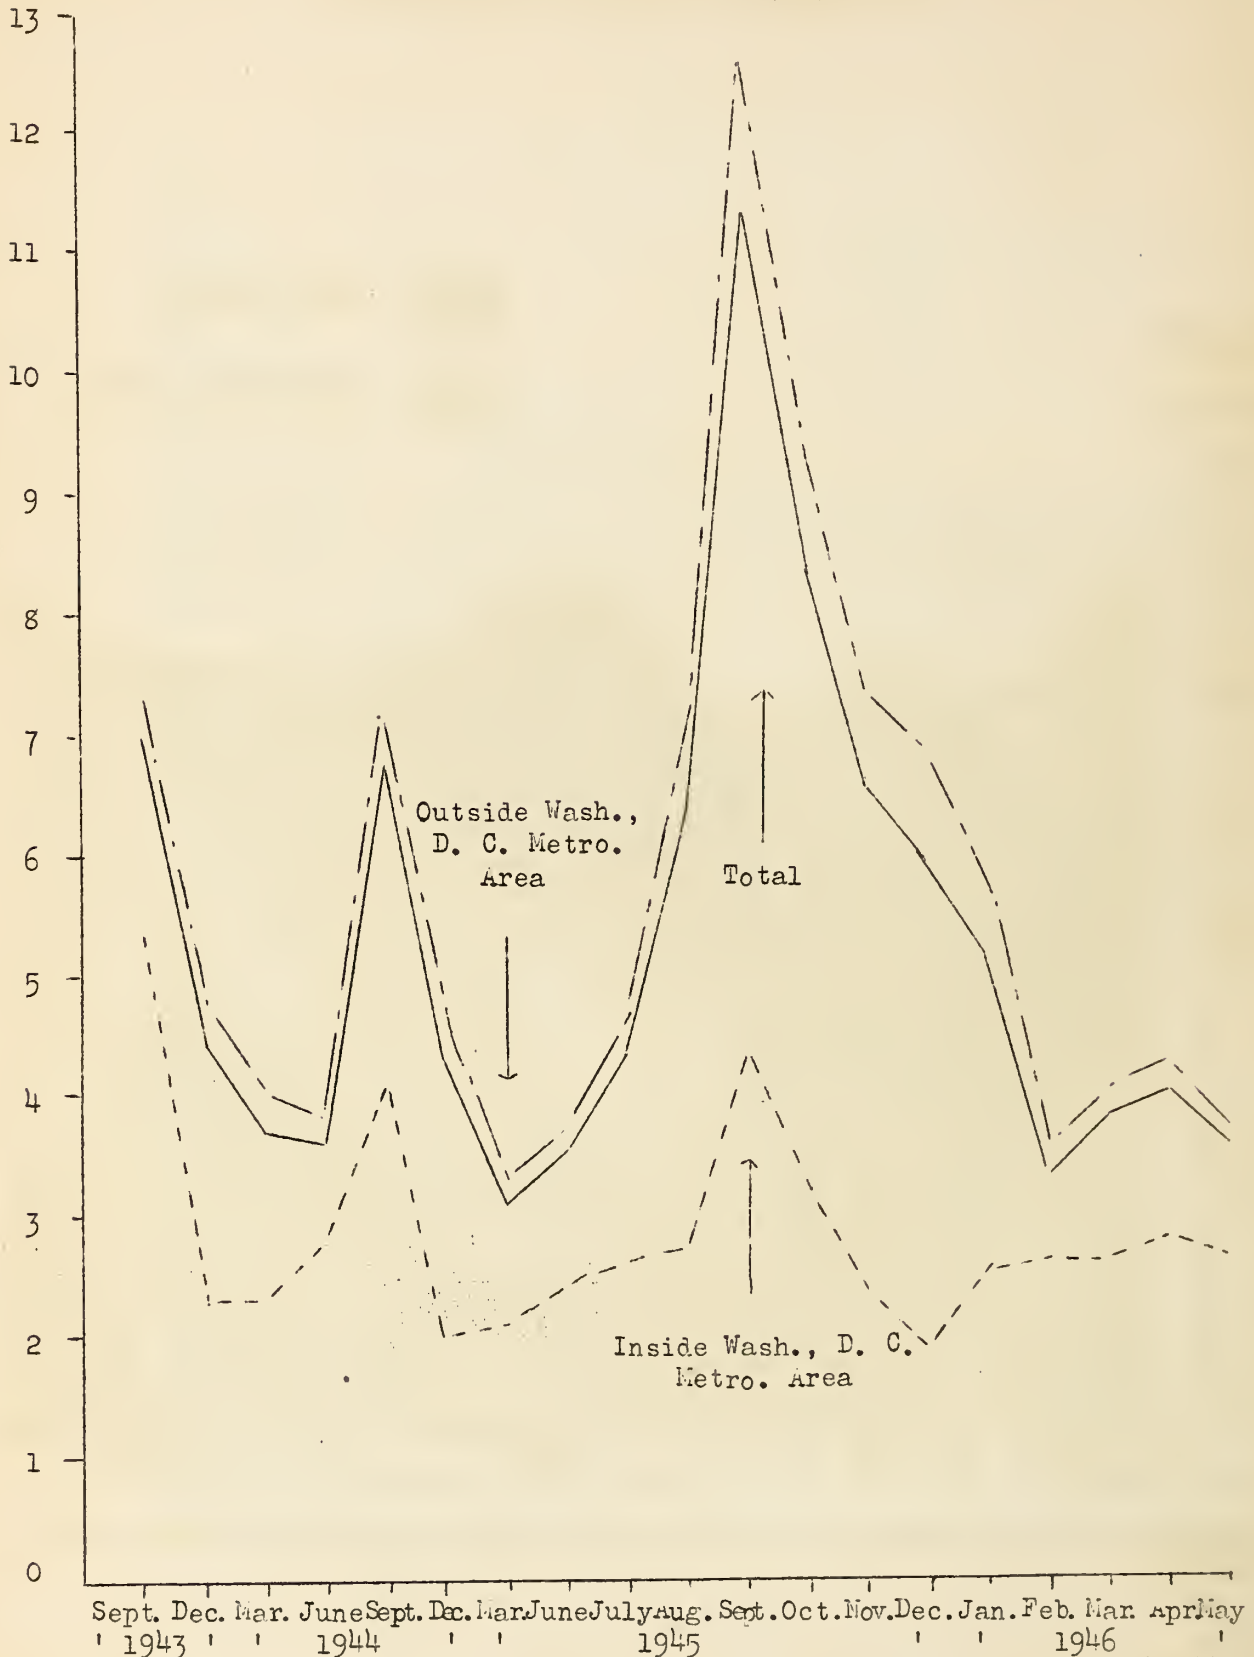

COMPARISON OF FULL-TIME EMPLOYMENT 1/

1/ Excludes W. O. C. Employees and employees outside continental limits of the U. S.

TURNOVER OF FULL-TIME EMPLOYEES 1/

Percent

1/ Excludes transfers between reporting units. Employees outside the Cont. limits of the U. S. are excluded. Full-time, according to the revised Civil Service Form 3257 includes only regular and temporary employees.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.
3. Temporary employees are those formally engaged for a specific period of time not to exceed one year.
4. Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.
5. W.A.E. (when actually employed) represents those paid only for the time actually worked.
6. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
7. Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)
8. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
9. Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.
10. Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)
2. All persons on leave without pay during the entire period covered by report.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

Explanatory Note	

March 31, 1946. The number of regular full-time female employees, 21,552 on June 30, 1946 represent 30.0 percent of total regular full-time employees, a decrease of 4.5 percent from March 31, 1946 figure.

PERSONNEL TURNOVER

FOURTH QUARTER, FISCAL YEAR, 1946

Accessions to regular full-time employees totaled 17,340 during the quarter ending June 30, 1946, excluding transfers between reporting units. There were 595 transfers from other departments and agencies, 14,398 appointments and reemployments, 1,716 returns from military furlough, and 631 of all other types. Appointments and Reemployments represent 83.0 percent of all accessions to the Department. The accession rate of full-time personnel in regular groups for the fourth quarter of the fiscal year, 1946 was 25.8 percent. This represents an increase of 10.9 percent over the accession rate of 14.9 percent for the third quarter, fiscal year, 1946.

Separations of regular full-time personnel from the Department amounted to 7,926 during the fourth quarter and consisted of 3,319 resignations; 2,548 terminations; 43 military furloughs; 664 extended leave without pay, furlough, suspension, war transfers, and leave without pay; and 1,352 of all other types. The separation rate for the same period was 11.8 percent, indicating an excess of accessions over separations of 14.0 percent. The rates for the Inside Washington, D. C. Metropolitan Area were: Accessions, 10.8 percent; and separations 7.9 percent, an excess of accessions over separations of 2.9 percent. The rates for the Outside Washington, D. C. Metropolitan Area were: Accessions 29.0 percent; separations, 12.6 percent, an excess of accessions of 16.4 percent. Altho this rate is used by the Civil Service Commission and apparently appears high, it is due to the separation of temporary employees and separations by reduction in force.

The turnover rate excluding the separation of temporary personnel and the separations due to reduction in force for the fourth quarter of the fiscal year 1946 was 6.3 percent; and for the month of June, 4.2 percent.

MILITARY FURLOUGHS

The total number of employees serving in the armed forces was 7,789 as of June 30, 1946. This figure includes the female employees serving in the Armed Forces and employees who left to join the Merchant Marine Service. Of the 7,789 serving, 27.3 percent are in the Production and Marketing Administration; 20.1 percent in the Farm Security Administration; 13.4 percent in the Farm Credit Administration; and 13.2 percent in the Soil Conservation Service. During the month of June, 1946, 389 employees returned to their positions in the Department. Five employees were known definitely to be deceased during the month of June, 1946.

PROMOTIONS

FOURTH QUARTER, FISCAL YEAR, 1946

A total of 2,402 grade, or grade and salary promotions, among employees subject to the Classification Act of 1923, as amended, and employees in the DA grades, was granted during the fourth quarter of the fiscal year, 1946. This represents an average of 801 grade or grade and salary promotions for one month.

On the basis of total grade, or grade and salary promotions granted during the quarter, and the average number of employees for the same period, one out of every 29 was recipient of one of the promotions. One out of every 23 in the CAF service received a promotion, as did one out of every 33 in the Professional service, one out of every 54 in the Sub-professional service, one out of every 44 in the CPC service, and one out of every 24 in the group designated as "Not Otherwise Classified".

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

FOURTH QUARTER, FISCAL YEAR, 1946

Full-time employment within the continental limits of the United States on June 30, 1946 was 71,830, an increase of 9,423 over March 31, 1946. The Inside Washington, D. C. Metropolitan Area was increased by 385 and the Outside Washington, D. C. Metropolitan Area was increased by 9,038. The increase in the Outside Washington, D. C. Metropolitan Area occurred during May and June and was due mainly to seasonal appointments of employees to carry on the Blister Rust Control Program and the Japanese and White Fringed Beetle work in the Bureau of Entomology and Plant Quarantine, and the organization and execution of fire control activities in the Forest Service.

Total employment on June 30, 1946 was 99,360, an increase of 13,495 over March 31, 1946. The Inside Washington, D. C. Metropolitan Area was increased by 529 and the Outside Washington, D. C. Metropolitan Area was increased by 12,966. During this quarter, employment other than full-time increased by 3,817 and employment outside the continental limits of the United States increased by 155.

JUNE, 1946

On June 30, 1946 there were 71,830 full-time employees within the continental limits of the United States, an increase of 5,727 over May 31, 1946. The Inside Washington, D. C. Metropolitan Area carried 11,809, an increase of 153; and the Outside Washington, D. C. Metropolitan Area showed 60,021, an increase of 5,574 for the same period.

The increase in full-time and other than full-time employees in the Bureau of Entomology and Plant Quarantine was due mainly to employment of employees to carry on the Blister Rust Control Program and the Japanese and White Fringed Beetle work. The increase in other than full-time in the Bureau of Plant Industry, Soils and Agricultural Engineering was due to seasonal employment of farm laborers. The increase in the full-time employment in the Forest Service was due to the organization and execution of fire control activities.

The decrease in full-time employees in the Farm Security Administration was necessary in order to conform with the 1947 budget.

Total employment on June 30, 1946 was 99,360, an increase of 7,087 over May 31, 1946. Inside the Washington, D. C. Metropolitan Area there were 12,228, an increase of 268; and 87,132 for the Outside Washington, D. C. Metropolitan Area, an increase of 6,819 for the same period. These figures apply to total employment in the Department including employees outside the continental limits of the U. S. and part-time workers as well as those regularly employed.

CASUAL EMPLOYEES

Casual employees (not included in the regular monthly reports of employment) are reported whenever complete information is received. For the month of May, 1946, there were 1,464 casual employees in the Department, representing a decrease of 4,984 over the March, 1946 figure. The Forest Service was the only bureau employing Casual personnel during May.

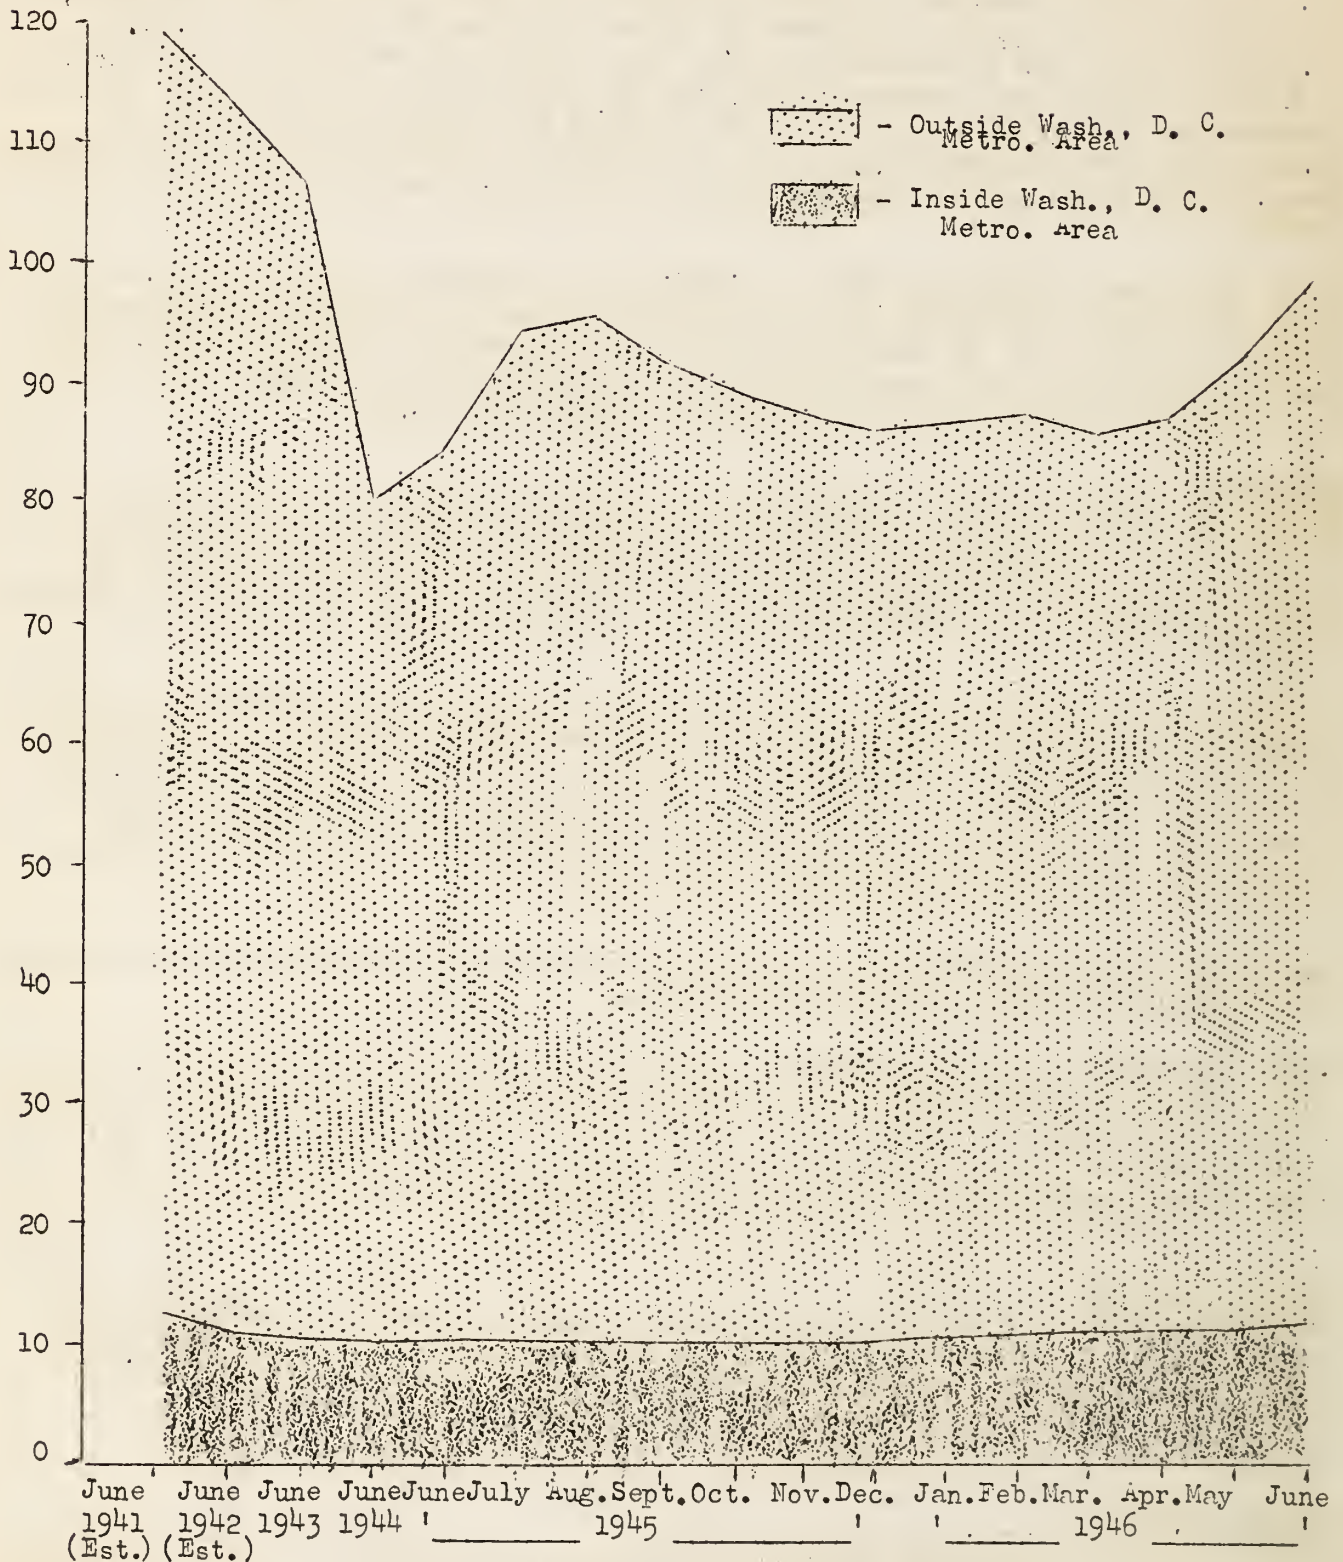

FEMALE EMPLOYEES

FOURTH QUARTER, FISCAL YEAR, 1946

There was an increase of 6 regular full-time female employees in the Department over

1/ Excludes employees outside the continental limits of the U. S., and WOC employees.

2/ Total accessions for the Department exclude transfers from other reporting units but such transfers are included in bureau accessions.

3/ Total separations for the Department exclude transfers to other reporting units, but such transfers are included in the bureau separations.

Formula Used: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the month of April. It will not agree with the resignation figure reported on line 20 of the CS Form 3257.

2/ Reasons making up this category are: Desires Perm Empl.; To work in Private Ind.; Bus. for Self; Former Trade or Job.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.
3. Temporary employees are those formally engaged for a specific period of time not to exceed one year.
4. Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.
5. W.A.E. (when actually employed) represents those paid only for the time actually worked.
6. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
7. Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)
8. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
9. Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.
10. Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

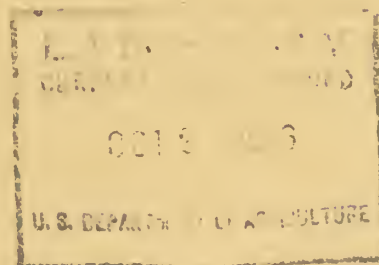

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)
2. All persons on leave without pay during the entire period covered by report.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work, emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: A.A. County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

July, 1946

Prepared by:
Office of Personnel
Division of Employment
September 20, 1946

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on July 31, 1946 was 76,126, an increase of 4,296 over June 30, 1946. Inside the Washington, D. C. Metropolitan Area there were 11,840, an increase of 31 over June 30, 1946. Outside the Washington, D. C. Metropolitan Area there were 64,286, an increase of 4,265 for the same period. These figures apply to full-time regular (salaried and wage) and temporary (salaried and wage) employees only.

Total employment on July 31, 1946 was 102,387, an increase of 3,027 over June 30, 1946. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, W.O.C. employees, and part-time workers as well as those regularly employed.

The increase in employment occurred in large part in the Forest Service, the Bureau of Entomology and Plant Quarantine, The Bureau of Plant Industry, Soils and Agricultural Engineering and the Bureau of Dairy Industry. The Forest Service added to the number of temporary full-time employees to carry on access road construction, fire protection and recreational improvements. The increase in the number of temporary full-time and other than full-time employees in the Bureau of Entomology and Plant Quarantine was due to seasonal employment in the Blister Rust Control and the work camps. The increase in the number of other than full-time employees and employees outside the continental limits of the United States in the Bureau of Plant Industry, Soils and Agricultural Engineering was due to seasonal employment of laborers. The increase in full-time employment in the Bureau of Dairy Industry was made possible by a special appropriation to take care of a backlog and keep current the Dairy Herd Improvement Investigational work.

The decrease in other than full-time employment in the Farm Security Administration was due to delay in effecting appointments of committeemen because of the pay adjustment and termination of temporary employees. The decrease in other than full-time employment in the Soil Conservation Service was due to termination of temporary intermittent labor.

TURNOVER

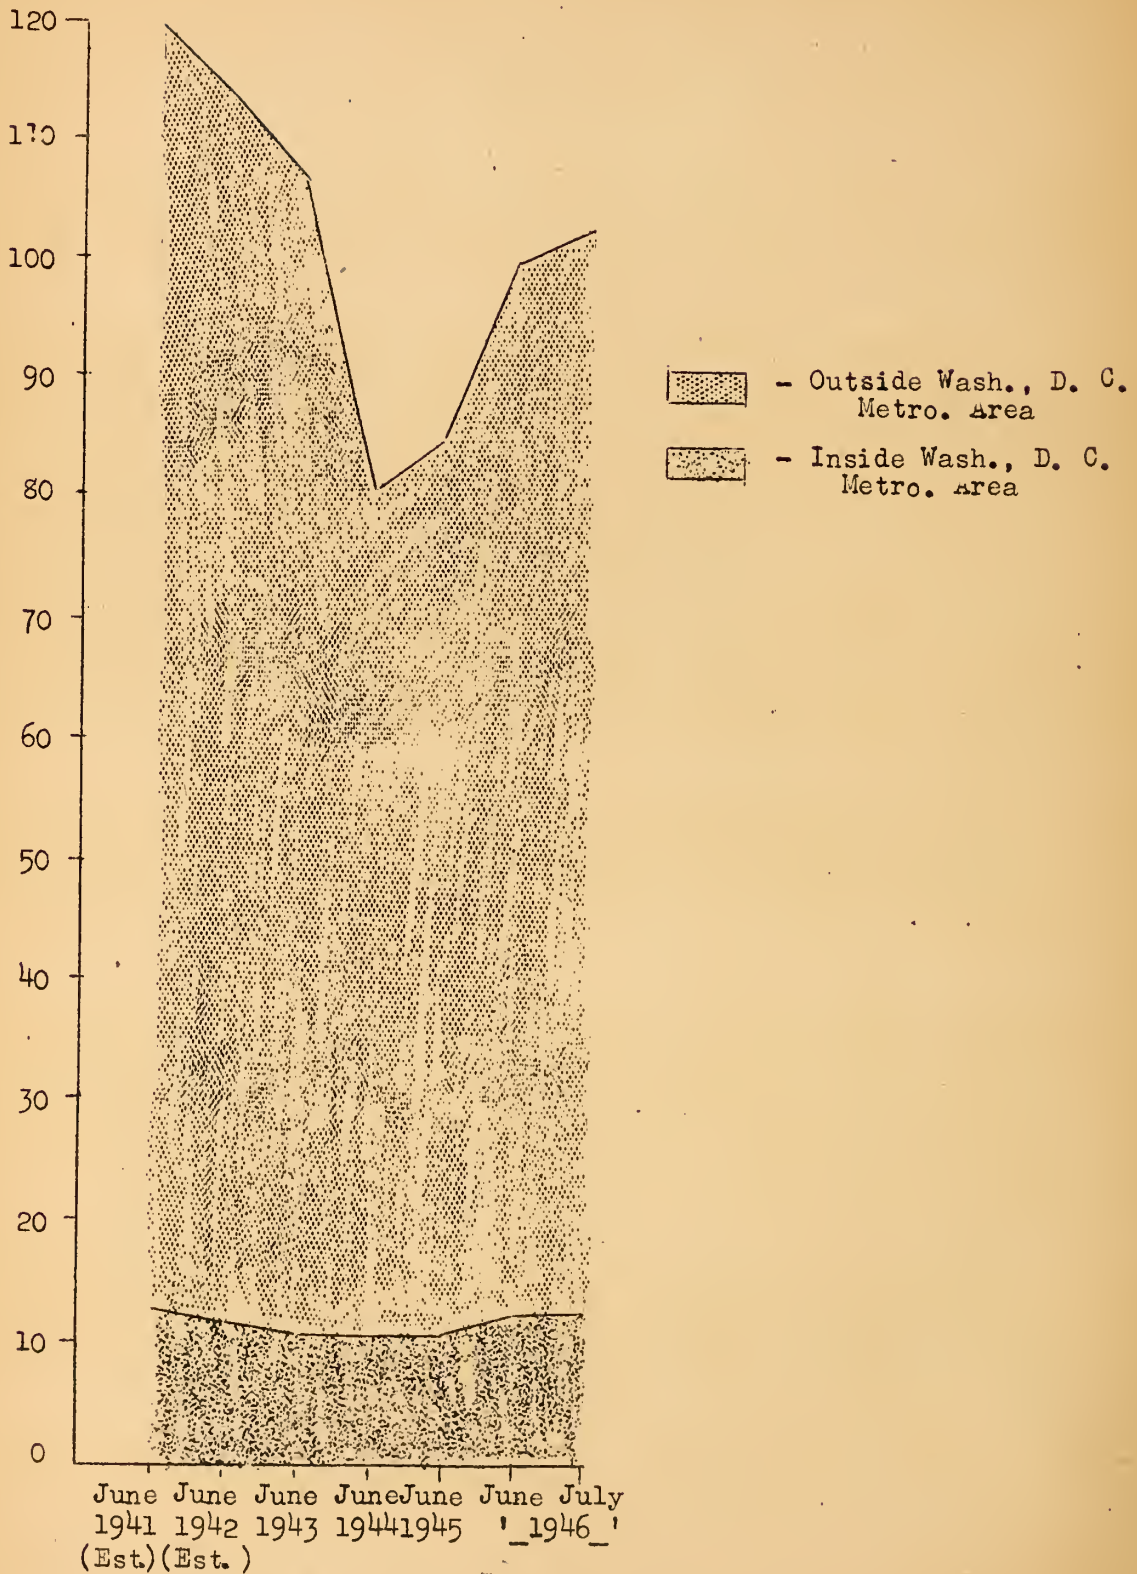

The separations of total full-time personnel, including temporary as well as regular salaried employees, from the Department for July, 1946 totaled 4,209 or 5.7 percent, an increase of 1.1 percent over June, 1946. There were 303 separations, or 2.6 percent in the Inside Washington, D. C. Metropolitan Area, an increase of 0.1 percent over June, 1946; and there were 3,906, or 6.3 percent for the Outside Washington, D. C. Metropolitan Area, an increase of 1.3 percent over June, 1946.

The greater percentage of the separations fell in the termination category and was caused by the expiration of temporary appointments. The next larger number of separations occurred in the resignation category. The specific reasons making up the resignation category are illness, returning to school, accepting positions in private industry, household duties, etc.

Separations of total regular full-time personnel from the Department (excluding reductions in force and separations of temporary employees) for July, 1946 was 1,395, representing a 2.3 percent turnover.

COMPARISON OF TOTAL EMPLOYMENT ^{1/}

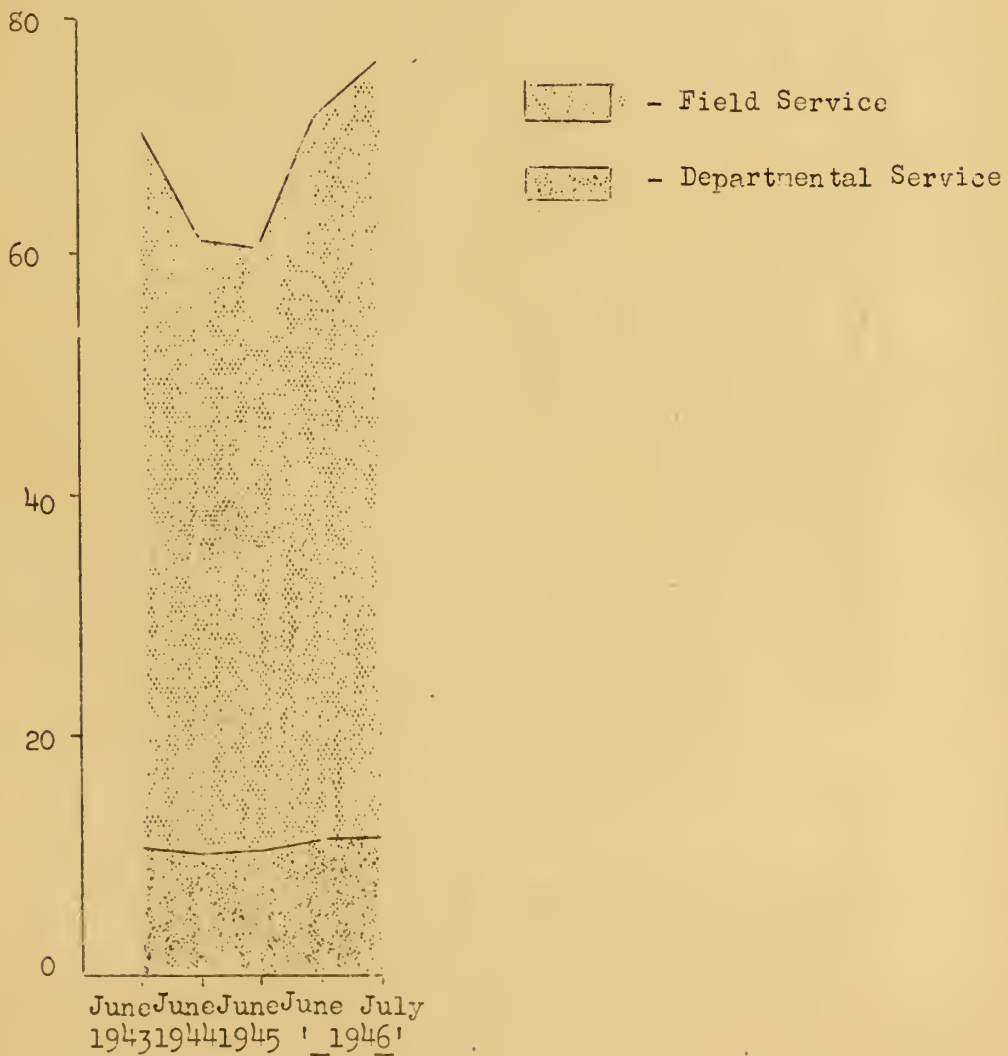

Thousands
of
Employees

^{1/} Includes employees outside the continental limits of the U. S. and W. O. C. Employees

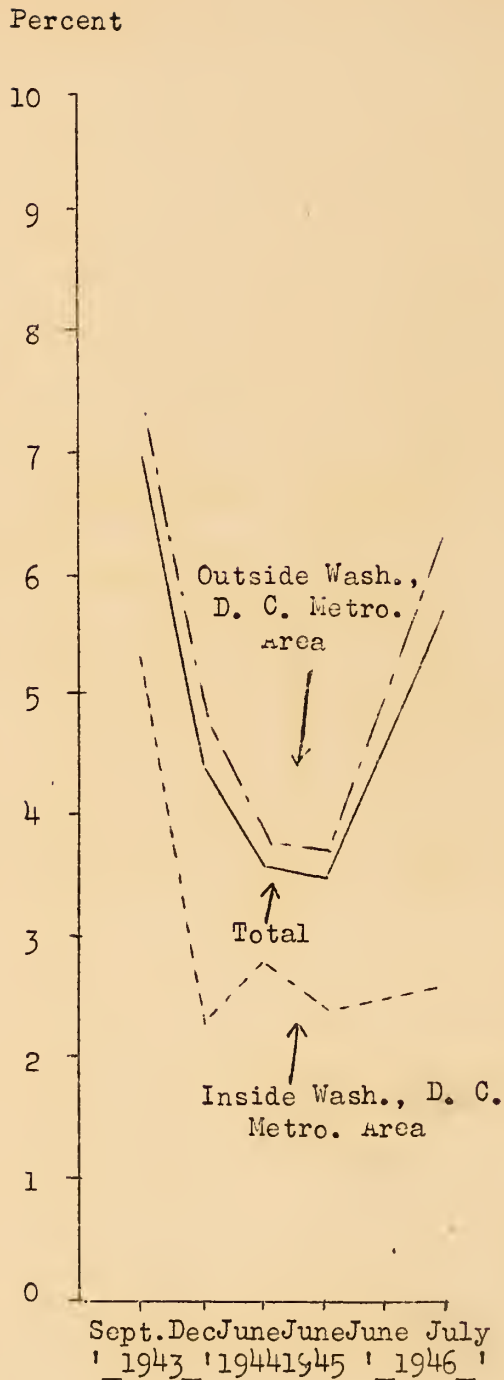

COMPARISON OF FULL-TIME EMPLOYMENT 1/

Thousands
of
Employees

1/ Excludes W. O. C. Employees and employees outside continental limits of the United States.

TURNOVER OF FULL-TIME EMPLOYEES 1/

1/ Excludes transfers between reporting units. Employees outside the Cont. limits of the U. S. are excluded. Full-time, according to the revised Civil Service Form 3257 includes only regular and temporary employees.

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the months of May and June. It will not agree with the resignation figure reported on line 20 of the CS Form 3257.

2/ Summary includes Ofc Budget and Finance, Ofc of Personnel, Ofc of Plant & Oper.; Work. Cap. Fund; and Imm. Ofc of Sec'y.

3/ Reasons making up this category are: Desires Fern Empl.; Work in Priv. Ind.; Bus. for Self; Former Trade or Job.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.
3. Temporary employees are those formally engaged for a specific period of time not to exceed one year.
4. Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.
5. W.A.E. (when actually employed) represents those paid only for the time actually worked.
6. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
7. Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)
8. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
9. Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.
10. Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

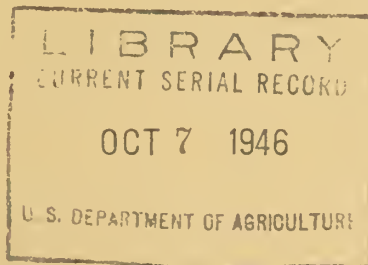

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)
2. All persons on leave without pay during the entire period covered by report.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work, emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: DCA County Committeemen, and county employees other than committeemen, extension agents, DCA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

August, 1946

Prepared by:
Office of Personnel
Division of Employment
October 2, 1946

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on August 31, 1946 was 74,759, a decrease of 1,367 since July 31, 1946. Inside the Washington, D. C. Metropolitan Area there were 12,098, an increase of 258 over July 31, 1946. Outside the Washington, D. C. Metropolitan Area there were 62,661, a decrease of 1,625 for the same period. The increase in the Inside D. C. Metropolitan Area was caused by the official change in headquarters of the Farm Credit Administration from Kansas City, Missouri to Washington, D. C. These figures apply to full-time regular (salaried and wage) and temporary (salaried and wage) employees only.

Total employment on August 31, 1946 was 100,425, a decrease of 1,962 since July 31, 1946. This figures applies to total employment in the Department, including employees outside the continental limits of the United States, W. O. C. employees, and part-time workers as well as those regularly employed.

The decrease in employment occurred in large part in the Bureau of Entomology and Plant Quarantine, the Forest Service, the Production and Marketing Administration, the Bureau of Plant Industry, Soils and Agricultural Engineering, the Soil Conservation Service and the Bureau of Human Nutrition and Home Economics. The decrease in the number of temporary full-time and other than full-time employees in the Bureau of Entomology and Plant Quarantine was due to the closing of the Blister Rust Control camps in the western region. The decrease in the temporary full-time and other than full-time employees in the Forest Service was due to the end of the fire season, closing of Blister Rust Control camps and employees returning to school. The decrease in the number of regular full-time and other than full-time employees in the Production and Marketing Administration inside the Washington, D. C. Metropolitan area was due to resignations and reductions in force. The decrease in the number of other than full-time employees and employees outside the continental limits of the United States in the Bureau of Plant Industry, Soils and Agricultural Engineering was due to termination of seasonal appointments. The decrease in the number of other than full-time employees in the Soil Conservation Service was due to termination of temporary intermittent labor. The decrease in the number of temporary full-time and other than full-time employees in the Bureau of Human Nutrition and Home Economics was due to the completion of a project on Rural Family Living in a Shifting Cotton Economy in the state of Mississippi.

The increase in other than full-time employment in the Farm Security Administration was due to completion of appointments for State and County Committeemen. The increase in other than full-time employment in the Bureau of Agricultural Economics was due to employment for the Farm Wage Rate Survey project.

TURNOVER

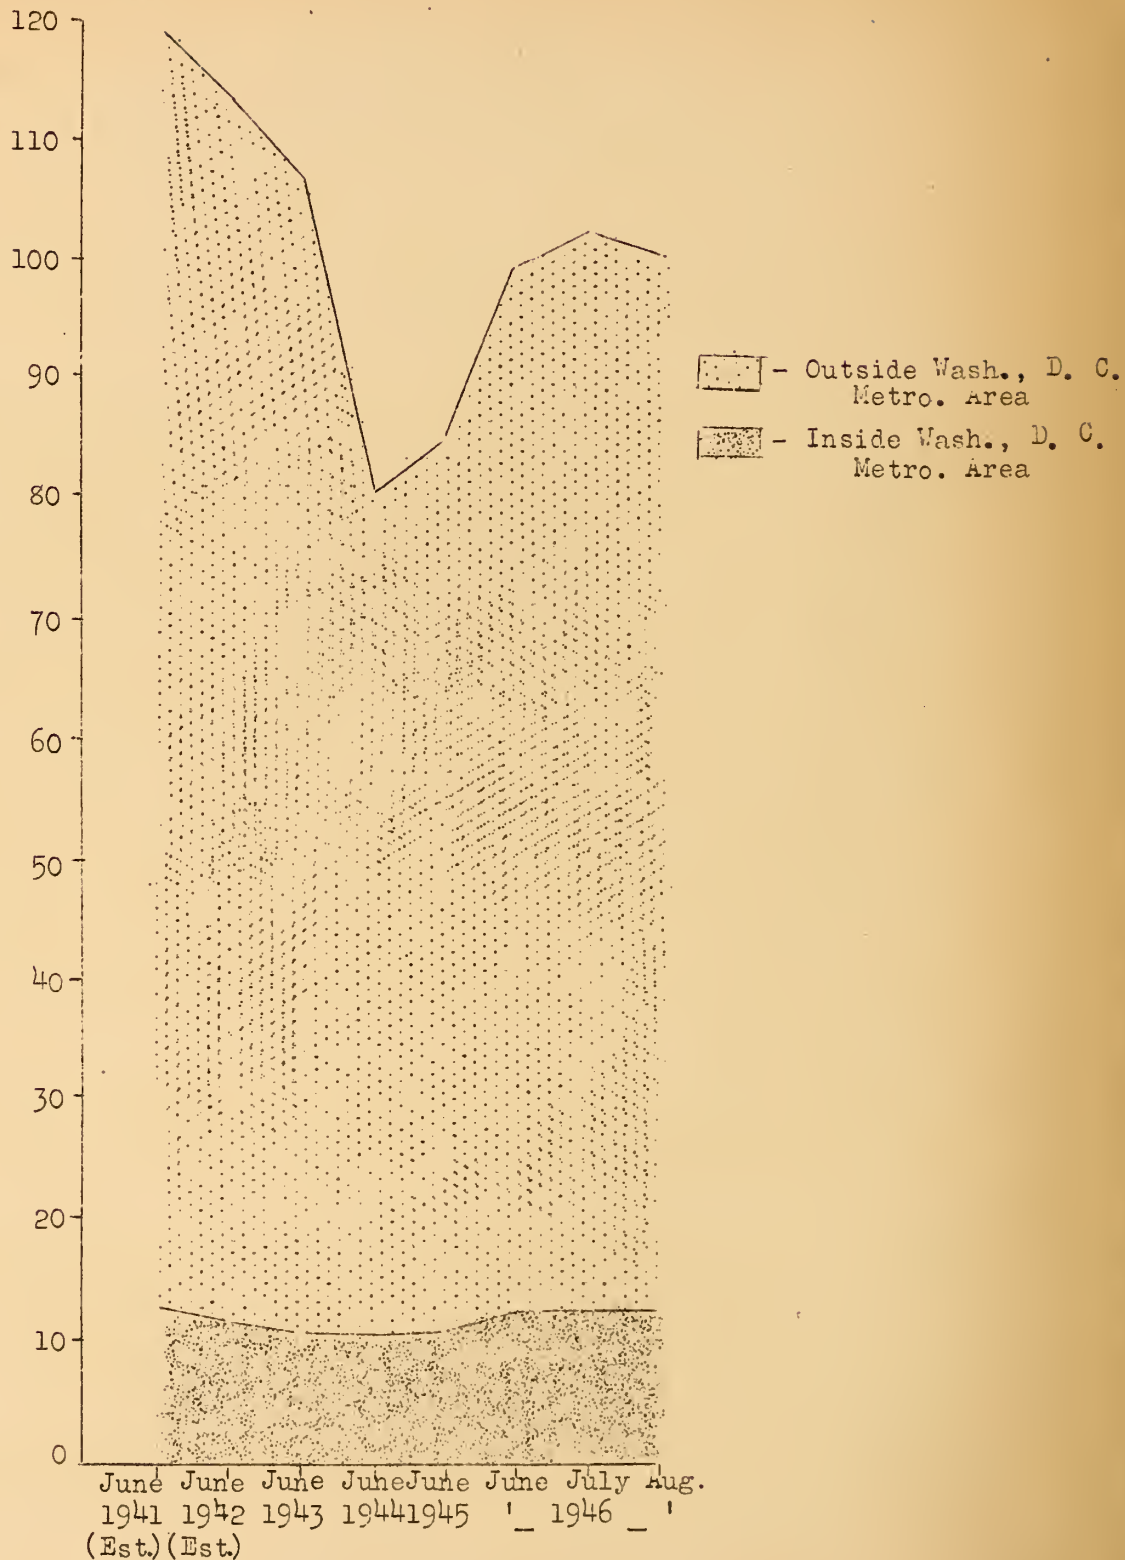

The separations of total full-time personnel, including temporary as well as regular salaried employees, from the Department for August, 1946 total 5,956 or 7.9 percent, an increase of 2.2 percent over July, 1946. There were 396 separations, or 3.3 percent in the Inside Washington, D. C. Metropolitan Area, an increase of 0.7 percent over July, 1946; and there were 5,560, or 8.8 percent for the Outside Washington, D. C. Metropolitan Area, an increase of 2.5 percent over July, 1946.

The greater percentage of the separations fell in the termination category and was caused by the expiration of temporary appointments. The next larger number of separations occurred in the resignation category. The specific reasons making up the resignation category are illness, returning to school, accepting positions in private industry, household duties, etc.

Separations of total regular full-time personnel from the Department (Excluding reduction in force and separations of temporary employees) for August, 1946 was 2,250, representing a 3.8 percent turnover.

COMPARISON OF TOTAL EMPLOYMENT 1/

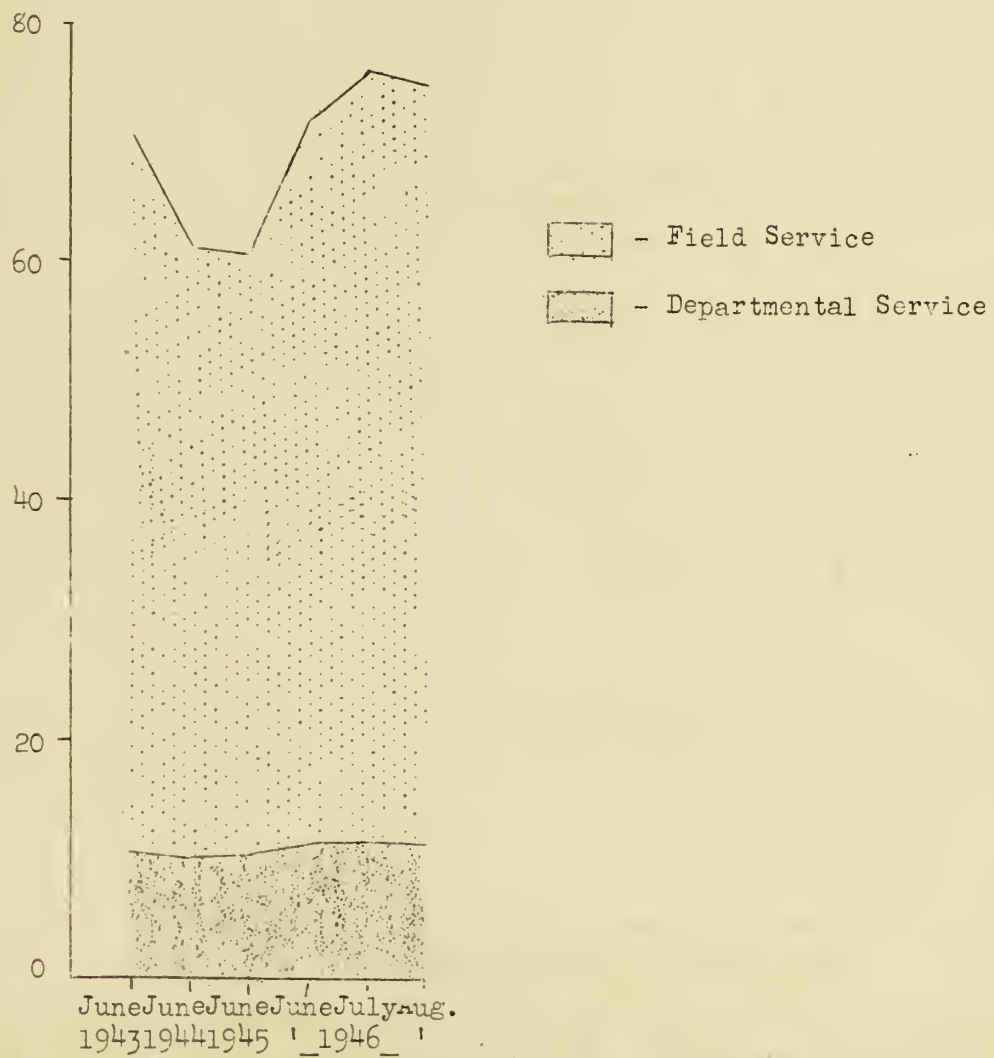

Thousands
of
Employees

1/ Includes employees outside the continental limits of the U. S. and W. O. C. Employees.

COMPARISON OF FULL-TIME EMPLOYMENT 1/

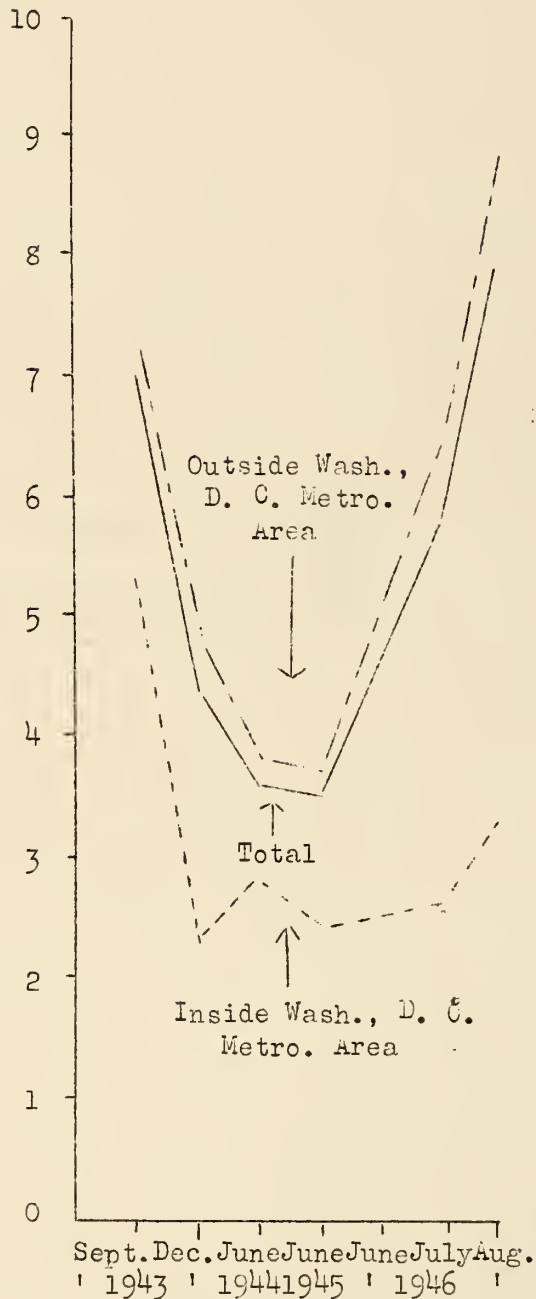

Thousands
of
Employees

1/ Excludes W. O. C. employees and employees outside continental limits of the United States.

TURNOVER OF FULL-TIME EMPLOYEES 1/

Percent

1/ Excludes transfers between reporting units.. Employees outside the Cont. limits of the U. S. are excluded. Full-time, according to the revised Civil Service Form 3257 includes only regular and temporary employees.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.
3. Temporary employees are those formally engaged for a specific period of time, not to exceed one year.
4. Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.
5. W.A.E. (when actually employed) represents those paid only for the time actually worked.
6. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
7. Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)
8. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
9. Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.
10. Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

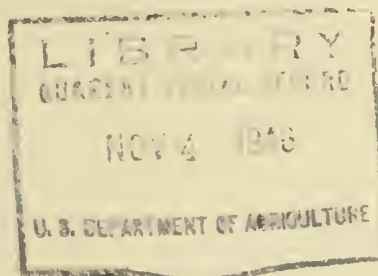

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)
2. All persons on leave without pay during the entire period covered by report.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work, emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: RIA County Committeemen, and county employees other than committeemen, extension agents, RIA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

Explanatory Note

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

FIRST QUARTER, FISCAL YEAR, 1947

Full-time employment within the continental limits of the United States on September 30, 1946 was 69,455, a decrease of 2,375 from June 30, 1946. The Inside Washington, D. C. Metropolitan Area was increased by 80 and the Outside Washington, D. C. Metropolitan Area was decreased by 2,455. The increase in the Inside Washington, D. C. Metropolitan Area was due mostly to the official change in headquarters of the Farm Credit Administration from Kansas City, Missouri to Washington, D. C. The decrease in the Outside Washington, D. C. Metropolitan Area occurred during August and September and was due mainly to curtailment of seasonal activities in the field in the Bureau of Entomology and Plant Quarantine and the Forest Service.

Total employment on September 30, 1946 was 94,586, a decrease of 4,774 from June 30, 1946. The Inside Washington, D. C. Metropolitan Area was decreased by 76 and the Outside Washington, D. C. Metropolitan Area was decreased by 4,698. During this quarter, employment other than full-time decreased by 2,356 and employment outside the continental limits of the United States decreased by 127.

SEPTEMBER, 1946

On September 30, 1946 there were 69,455 full-time employees within the continental limits of the United States, a decrease of 5,304 from August 31, 1946. The Inside Washington, D. C. Metropolitan Area carried 11,889, a decrease of 209; and the Outside Washington, D. C. Metropolitan Area showed 57,566, a decrease of 5,095 for the same period.

The decrease in full-time and other than full-time employees in the Bureau of Entomology and Plant Quarantine was due mainly to curtailment of seasonal activities in the field. The decrease in full-time employees and other than full-time employees in the Production and Marketing Administration was due to resignations and reductions in force necessitated by ceiling requirements. The decrease in full-time employees in the Forest Service was due to the end of the summer season of fire control activities. The decrease in other than full-time employees in the Bureau of Agricultural Economics and the Soil Conservation Service was due to the termination of temporary intermittent employees. The decrease in other than full-time employees and employees outside the continental limits of the United States in the Bureau of Plant Industry, Soils and Agricultural Engineering was due to termination of seasonal appointments. The decrease in full-time employment in the Farm Security Administration was due to resignations.

The increase in the other than full-time employees in the Forest Service was necessary to handle the access road maintenance and construction and the recreational area maintenance in the middle and southeastern states. The increase in the other than full-time employees in the Farm Security Administration was due to the appointments of State and County Committeemen.

Total employment on September 30, 1946 was 94,586, a decrease of 5,839 from August 31, 1946. Inside the Washington, D. C. Metropolitan Area, there were 12,152, a decrease of 208; and 82,434 for the Outside Washington, D. C. Metropolitan Area, a decrease of 5,631 for the same period. These figures apply to total employment in the Department including employees outside the continental limits of the U. S. and part-time workers as well as those regularly employed.

CASUAL EMPLOYEES

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of August, 1946, there were 4,170 casual employees in the Department, representing an increase of 2,150 over the June, 1946 figure. The Forest Service was the only bureau employing Casual personnel during August.

FEMALE EMPLOYEES

FIRST QUARTER, FISCAL YEAR, 1947

There was a decrease of 1,165 regular full-time female employees in the Department from June 30, 1946. The number of regular full-time female employees, 20,387, on September 30, 1946, represent 29.4 percent of total regular full-time employees, a decrease of 0.6 percent from the June 30, 1946 figure.

PERSONNEL TURNOVER

FIRST QUARTER, FISCAL YEAR, 1947

Accessions to regular full-time employees totaled 16,033 during the quarter ending September 30, 1946, excluding transfers between reporting units. There were 360 transfers from other departments and agencies, 14,721 appointments and reemployments and 587 returns from military furlough, and 365 of all other types. Appointments and Reemployments represent 91.8 percent of all accessions to the Department. The accession rate of full-time personnel in regular groups for the first quarter of the fiscal year, 1947 was 22.7 percent. This represents a decrease of 3.1 percent from the accession rate of 25.8 percent for the fourth quarter, fiscal year, 1946.

Separations of regular full-time personnel from the Department amounted to 18,526 during the first quarter and consisted of 10,360 terminations; 5,264 resignations; 34 military furloughs; 557 extended leave without pay, furlough, suspension, war transfers, and leave without pay; and 2,311 of all other types. The separation rate for the same period was 26.2 percent, representing an excess of separations over accessions of 3.5 percent. The rates for the Inside Washington, D. C. Metropolitan Area were: Separations, 10.1 percent; and Accessions 6.7 percent, an excess of separations over accessions of 3.4 percent. The rates for the Outside Washington D. C. Metropolitan Area were: Separations 29.4 percent; Accessions, 25.9 percent an excess of separations of 3.5 percent. Altho this rate is used by the Civil Service Commission and apparently appears high, it is due to the separation of temporary employees and separations by reduction in force.

The turnover rate excluding the separation of temporary personnel and the separations due to reduction in force for the first quarter of the fiscal year 1947 was 6.5 percent; and for the month of September, 1.6 percent.

MILITARY FURLOUGHS

The total number of employees serving in the armed forces was 6,684 as of September 30, 1946. This figure includes the female employees serving in the Armed Forces and employees who left to join the Merchant Marine Service. Of the 6,684 serving, 27.7 percent are in the Production and Marketing Administration; 18.8 percent in the Farm Security Administration; 15.3 percent in the Farm Credit Administration; and 12.0 percent in the Soil Conservation Service. During the month of September, 1946, 139 employees returned to their positions in the Department. Two employees were known definitely to be deceased during the month of September, 1946.

PROMOTIONS

FIRST QUARTER, FISCAL YEAR, 1947

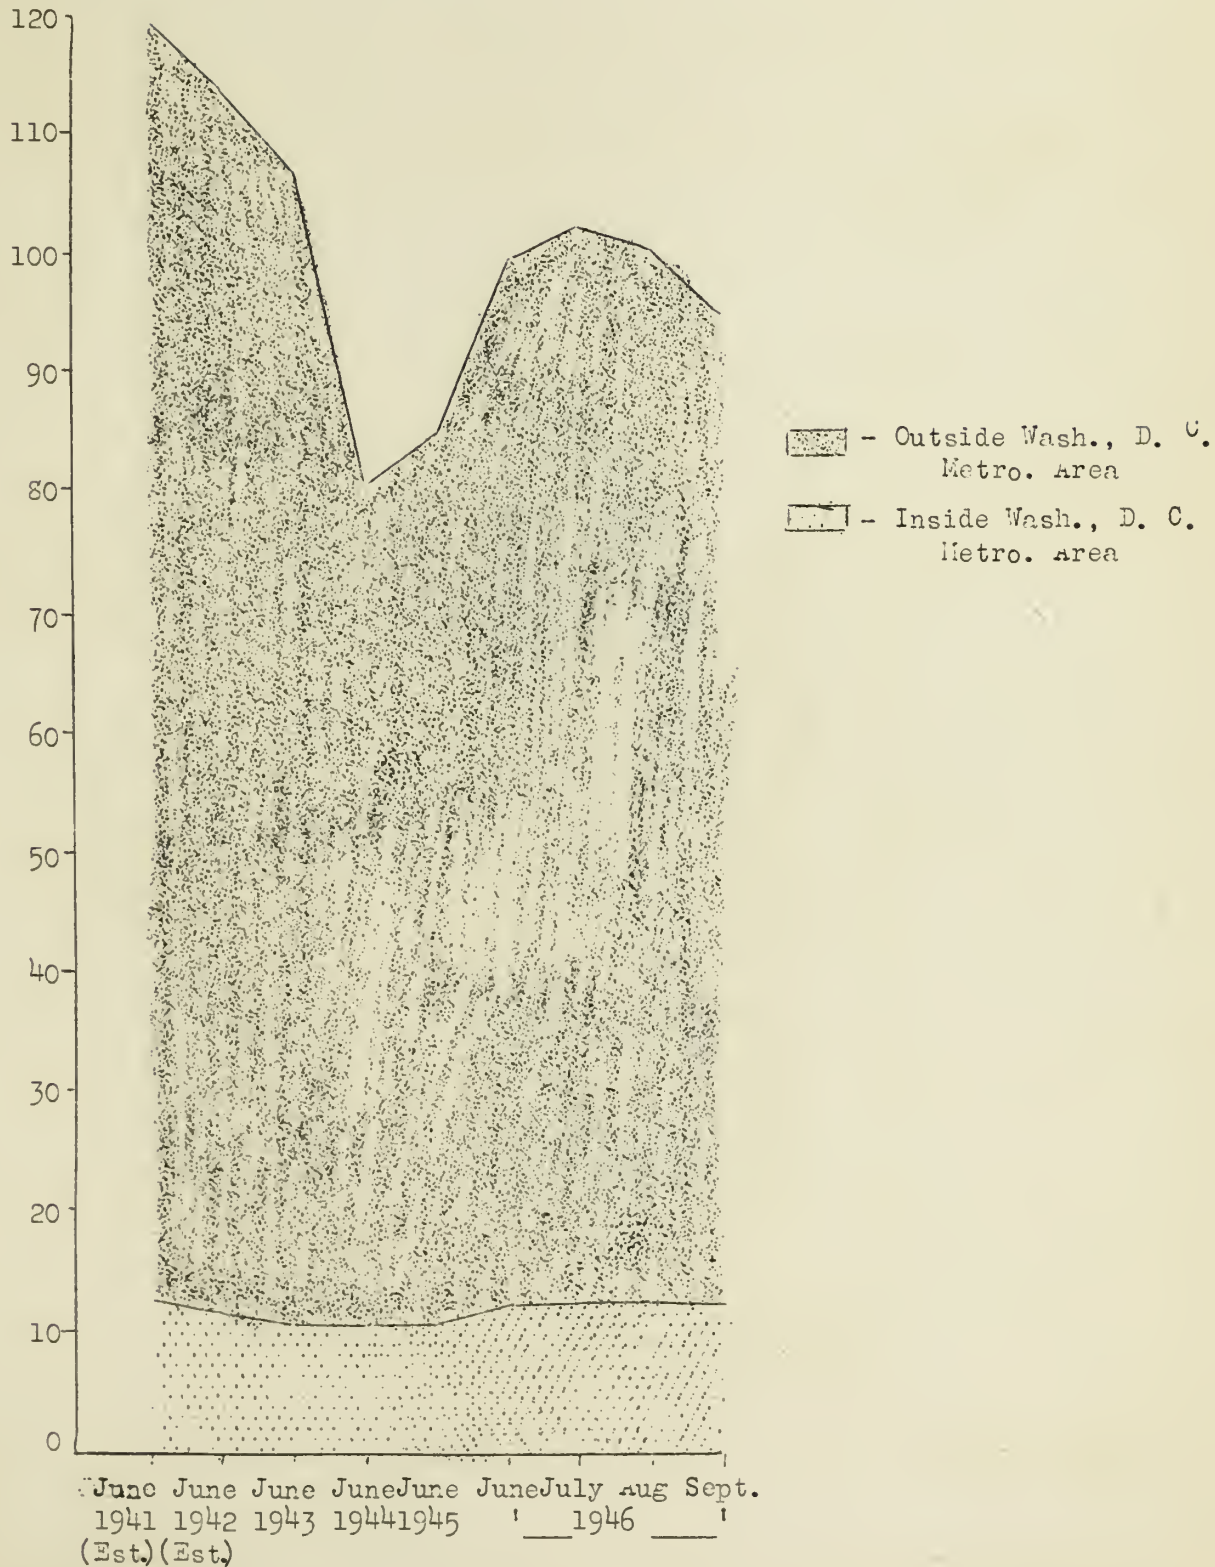

A total of 2,183 grade, or grade and salary promotions, among employees subject to

the Classification Act of 1923, as amended; and employees in the DA grades, was granted during the first quarter of the fiscal year, 1947. This represents an average of 728 grade or grade and salary promotions for one month.

On the basis of total grade, or grade and salary promotions granted during the quarter, and the average number of employees for the same period, one out of every 32 was recipient of one of the promotions. One out of every 29 in the CAF service received a promotion, as did one out of every 30 in the Professional service, one out of every 47 in the Sub-professional service, one out of every 46 in the CPC service, and one out of every 26 in the group designated as "Not Otherwise Classified".

COMPARISON OF TOTAL EMPLOYMENT 1/

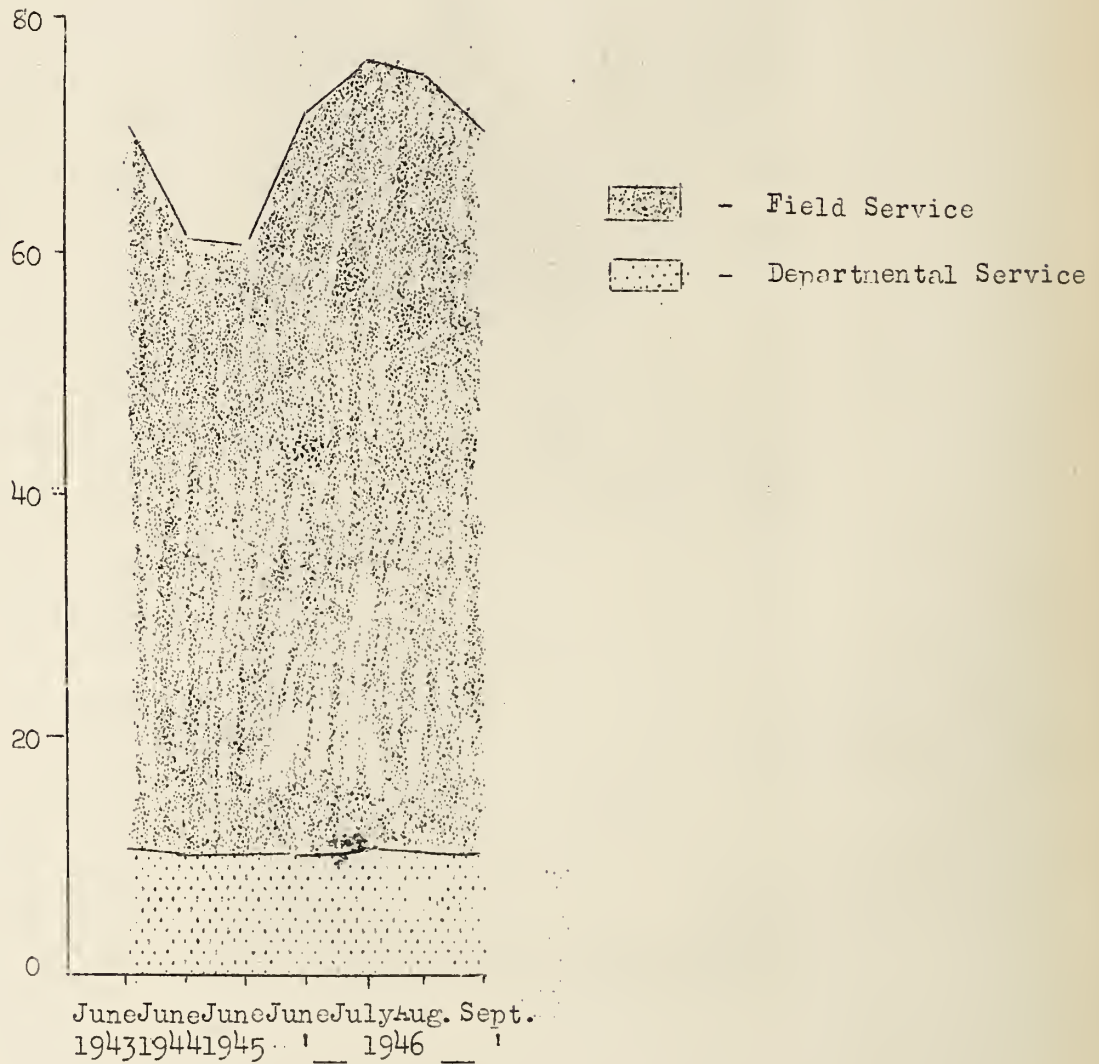

Thousands
of
Employees

1/ Includes employees outside the continental limits of the U. S. and W.O. C. Employees

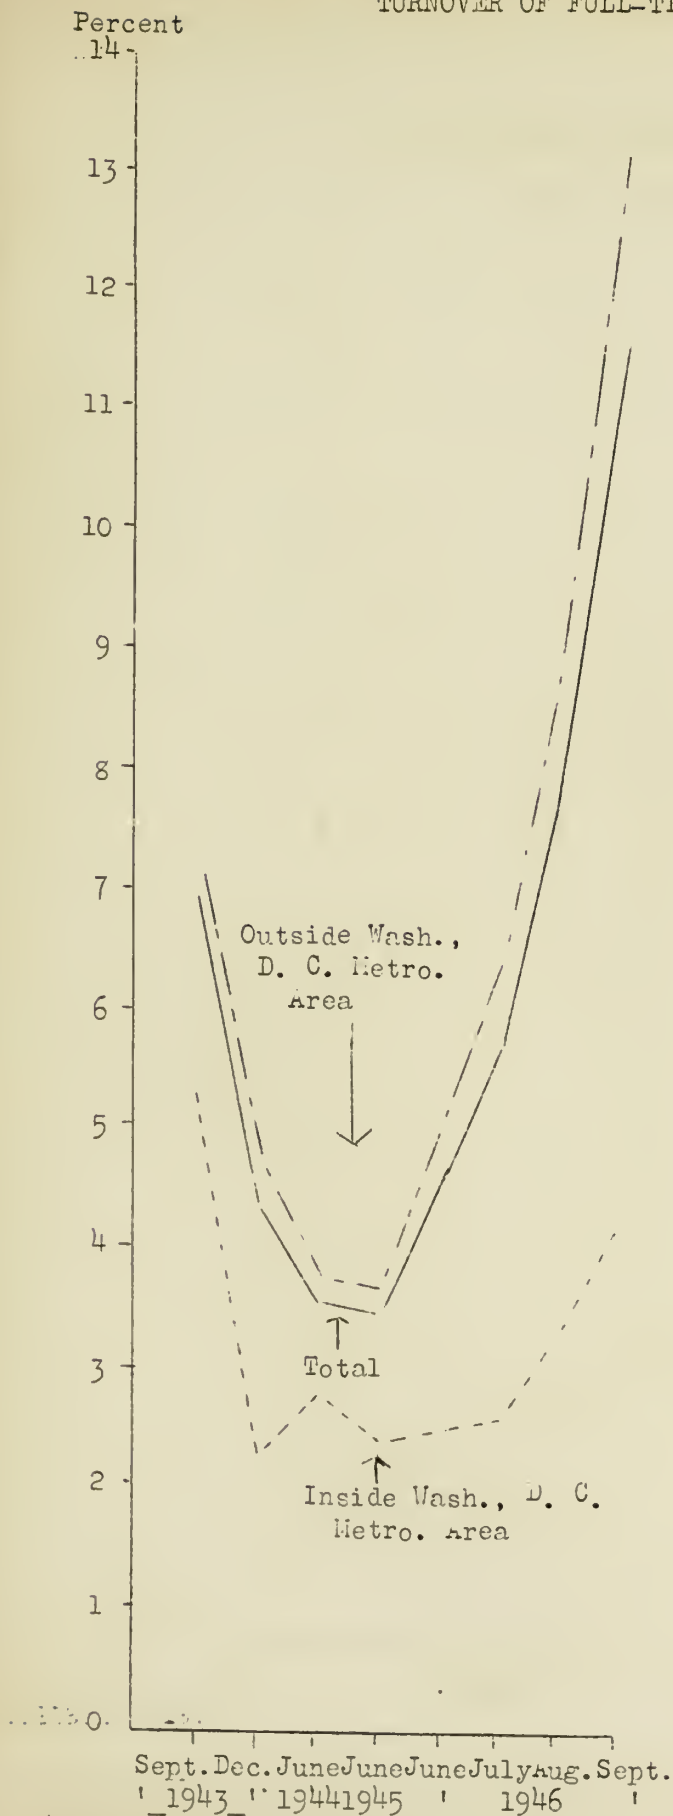

COMPARISON OF FULL-TIME EMPLOYMENT 1/

Thousands
of
Employees

1/ Excludes W.O.C. Employees and employees outside continental limits of the United States.

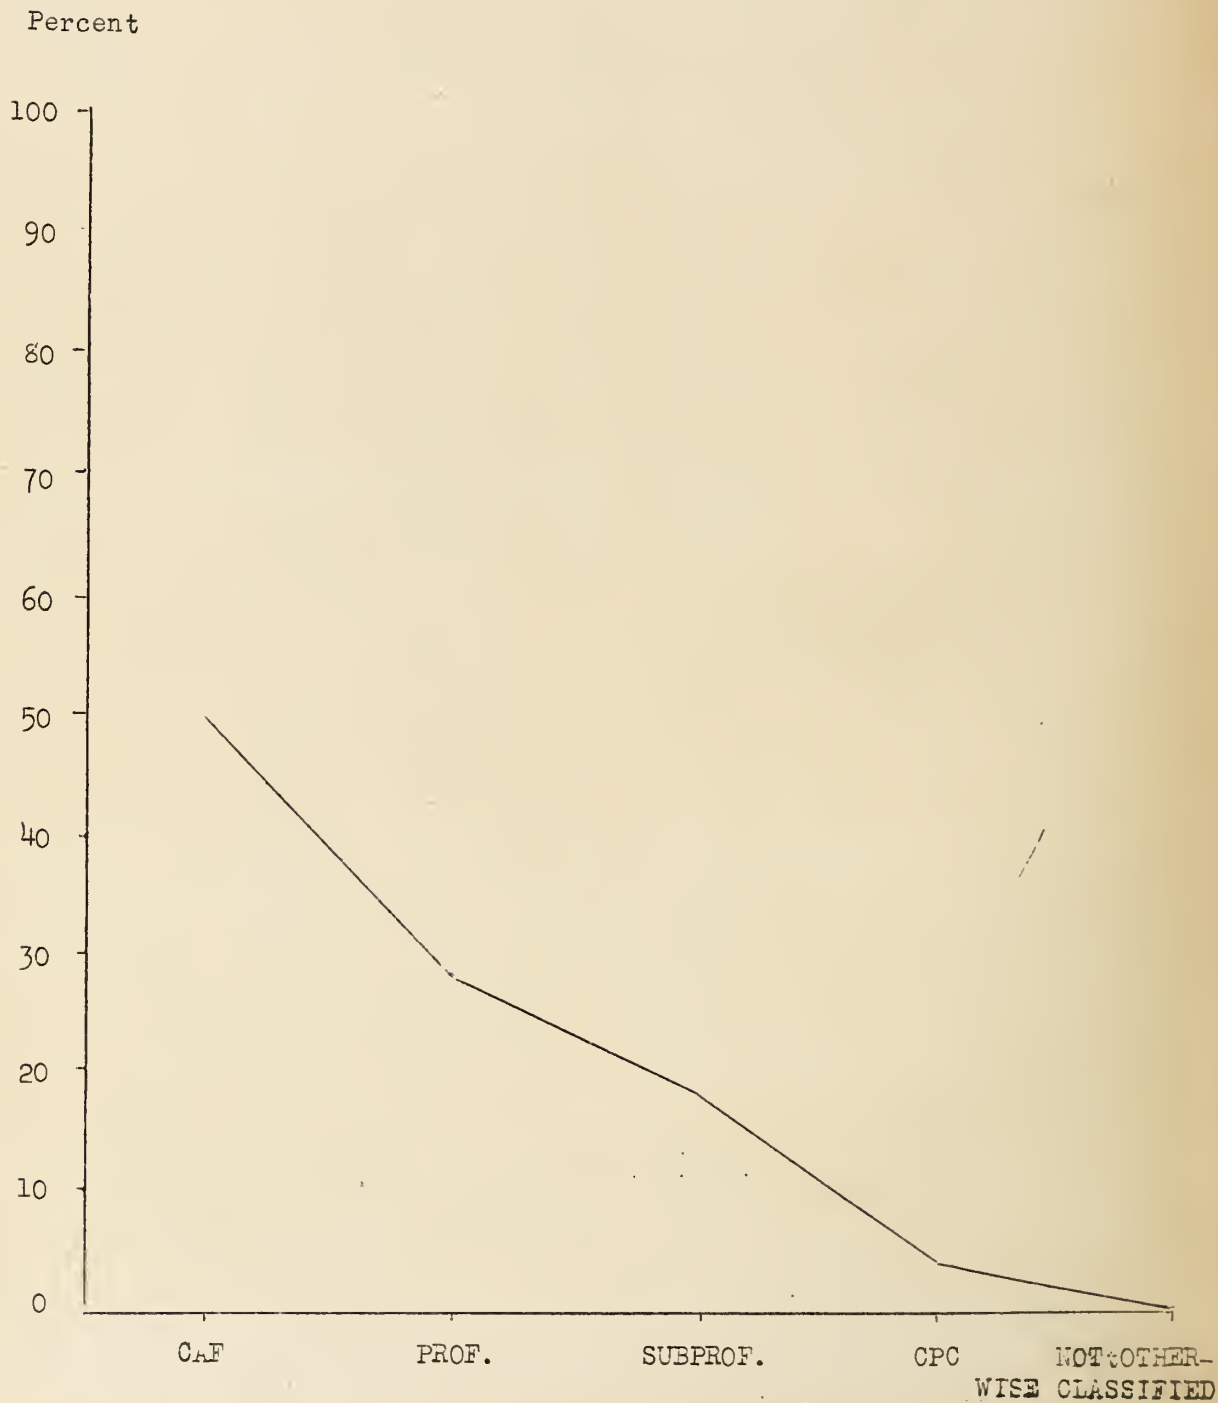

TURNOVER OF FULL-TIME EMPLOYEES 1/

1/ Excludes transfers between reporting units. Employees outside the Continental limits of the U.S. are excluded. Full-time, according to the revised Civil Service Form 3257 includes only regular and temporary employees.

PERCENT OF EMPLOYEES BY SERVICES 1/

Total, September, 1946

1/ Includes Employees Outside the Continental Limits of the U. S., but excludes WOC Employees.

1/ Excludes employees outside the continental limits of the U.S., and WOC employees
 2/ Total accessions for the Department exclude transfers from other reporting units, but such transfers are included in bureau accessions.

3/ Total separations for the Department exclude transfers to other reporting units, but such transfers are included in the bureau separations.

Formula Used: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

October, 1946

Prepared by:
Office of Personnel
Division of Employment
November 26, 1946

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.
3. Temporary employees are those formally engaged for a specific period of time not to exceed one year.
4. Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.
5. W.A.E. (when actually employed) represents those paid only for the time actually worked.
6. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
7. Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)
8. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
9. Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.
10. Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)
2. All persons on leave without pay during the entire period covered by report.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work, emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: LA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on October 31, 1946 was 66,450, a decrease of 3,005 since September 30, 1946. Inside the Washington, D. C. Metropolitan Area there were 11,623, a decrease of 266 since September 30, 1946. Outside the Washington, D. C. Metropolitan Area there were 54,827, a decrease of 2,739 for the same period.

Total employment on October 31, 1946 was 90,111, a decrease of 4,475 since September 30, 1946. This figure applies to total employment in the Department, including employees outside the continental limits of the United States, W.O.C. employees, and part-time workers as well as those regularly employed.

The decrease in employment occurred in large part in the Forest Service, the Bureau of Entomology and Plant Quarantine, the Soil Conservation Service and Production and Marketing Administration. The decrease in the number of temporary full-time employees in the Forest Service was due to curtailment of seasonal work. The decrease in the number of other than full-time employees in the Bureau of Entomology and Plant Quarantine was also due to curtailment of seasonal activities. The decrease in the other than full-time employees in the Soil Conservation Service was due to termination of temporary intermittent labor. The decrease in the full-time employees in the Production and Marketing Administration was caused by the official transfer of the Meat Inspection Division to the Bureau of Animal Industry and regular turnover.

The increase in the full-time employees in the Bureau of Animal Industry was caused by the transfer of the Meat Inspection Division from the Production and Marketing Administration. The increase in the other than full-time employees in the Farm Security Administration was due to the appointments of W.A.E. committeemen. The apparent increase in the full-time employees and the decrease in other than full-time employees in the Agricultural Research Center was due to ceiling requirements. The increase in the number of other than full-time employees in the Production and Marketing Administration was due to seasonal employment of Federal Crop adjusters and seasonal employment in the Field Service Branch in the Midwest region.

TURNOVER

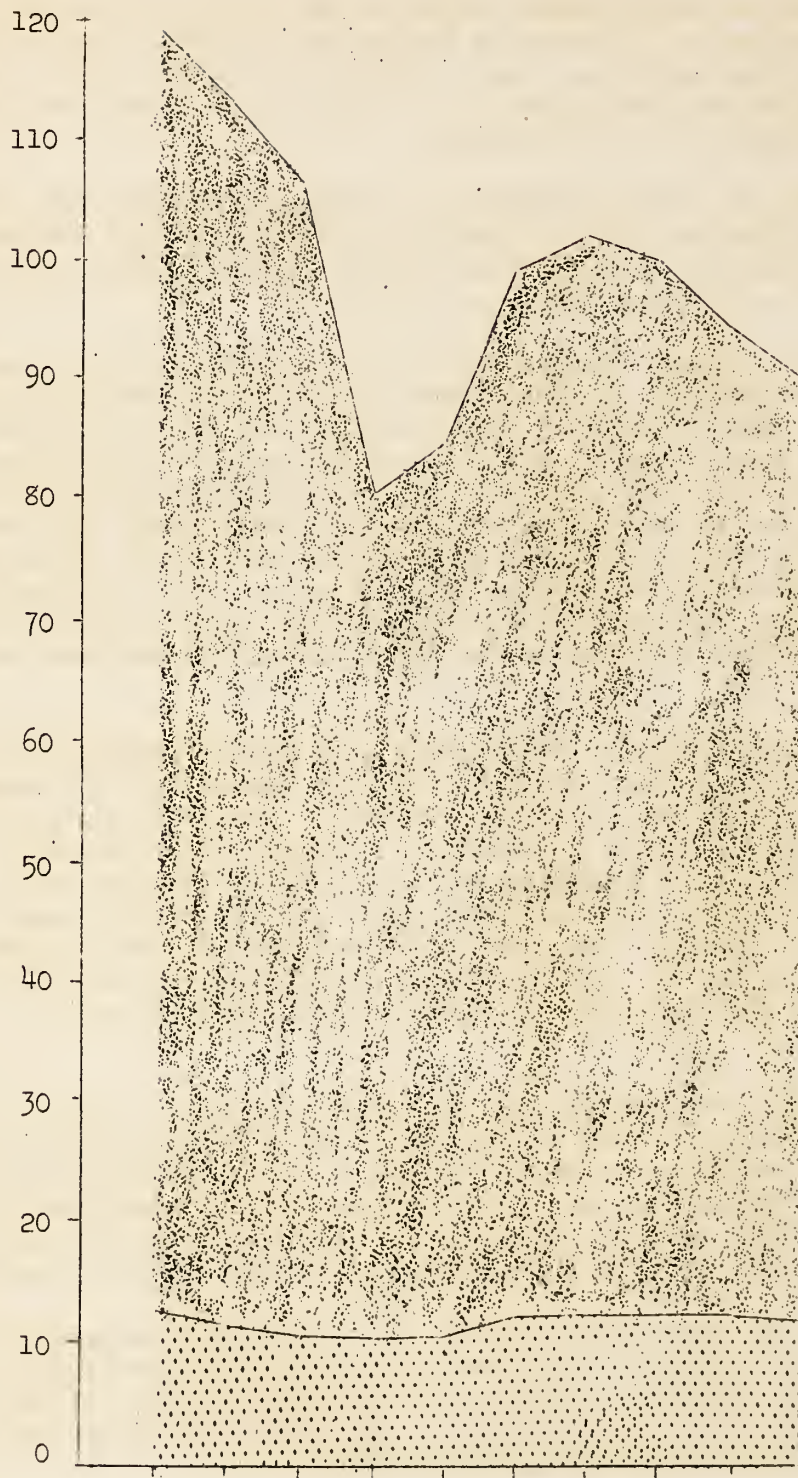

The separations of total full-time personnel, including temporary as well as regular salaried employees, from the Department for October, 1946 totaled 5,850 or 8.6 percent, a decrease of 3.0 under September, 1946. There were 475 separations, or 4.0 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 0.2 percent under September, 1946; and there were 5,375, or 9.6 percent for the Outside Washington, D. C. Metropolitan Area, a decrease of 3.5 percent for the same period.

The greater percentage of the separations fell in the termination category and was caused by the expiration of temporary appointments. The next larger number of separations occurred in the resignation category. The specific reasons making up the resignation category are illness, returning to school, accepting positions in private industry, household duties, leaving town, etc.

Separations of total regular full-time personnel from the Department (excluding reduction in force and separations of temporary employees) for October, 1946 was 1,455, representing a 2.5 percent turnover.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

November, 1946

Prepared by:
Office of Personnel
Division of Employment
December 30, 1946

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

Full-time employment within the continental limits of the United States on November 30, 1946 was 62,457, a decrease of 3,993 since October 31, 1946. Inside the Washington, D. C. Metropolitan Area there were 11,509, a decrease of 114 since October 31, 1946. Outside the Washington, D. C. Metropolitan Area there were 50,948, a decrease of 3,879 for the same period.

Total employment on November 30, 1946 was 83,595, a decrease of 6,516 since October 31, 1946. This figures applies to total employment in the Department, including employees outside the continental limits of the United States, WOC employees, and part-time workers as well as those regularly employed.

The decrease in employment occurred in large part in the Forest Service, the Farm Credit Administration, the Soil Conservation Service, the Production and Marketing Administration and the Bureau of Entomology and Plant Quarantine. The decrease in the number of temporary full-time and other than full-time employees in the Forest Service was due to the end of the fire season and also to the snows which have disrupted the road construction and other construction work on the National Forests. The decrease in the full-time employment in the Farm Credit Administration was due to the merger of the Emergency Crop and Feed Loan of the Farm Credit Administration and the Farm Security Administration into the Farmers Home Administration. The decrease in the number of other than full-time employees in the Soil Conservation Service was due to the termination of temporary intermittent labor. The decrease in the number of full-time employees in the Production and Marketing Administration was due to reductions in force in order to comply with personnel ceilings and regular turnover. The decrease in the number of full-time employees in the Bureau of Entomology and Plant Quarantine was due to curtailment of seasonal activities.

While the number of full-time employees in the Production and Marketing Administration was decreased the number of other than full-time employees was increased due to seasonal employment of Federal Crop adjusters.

TURNOVER

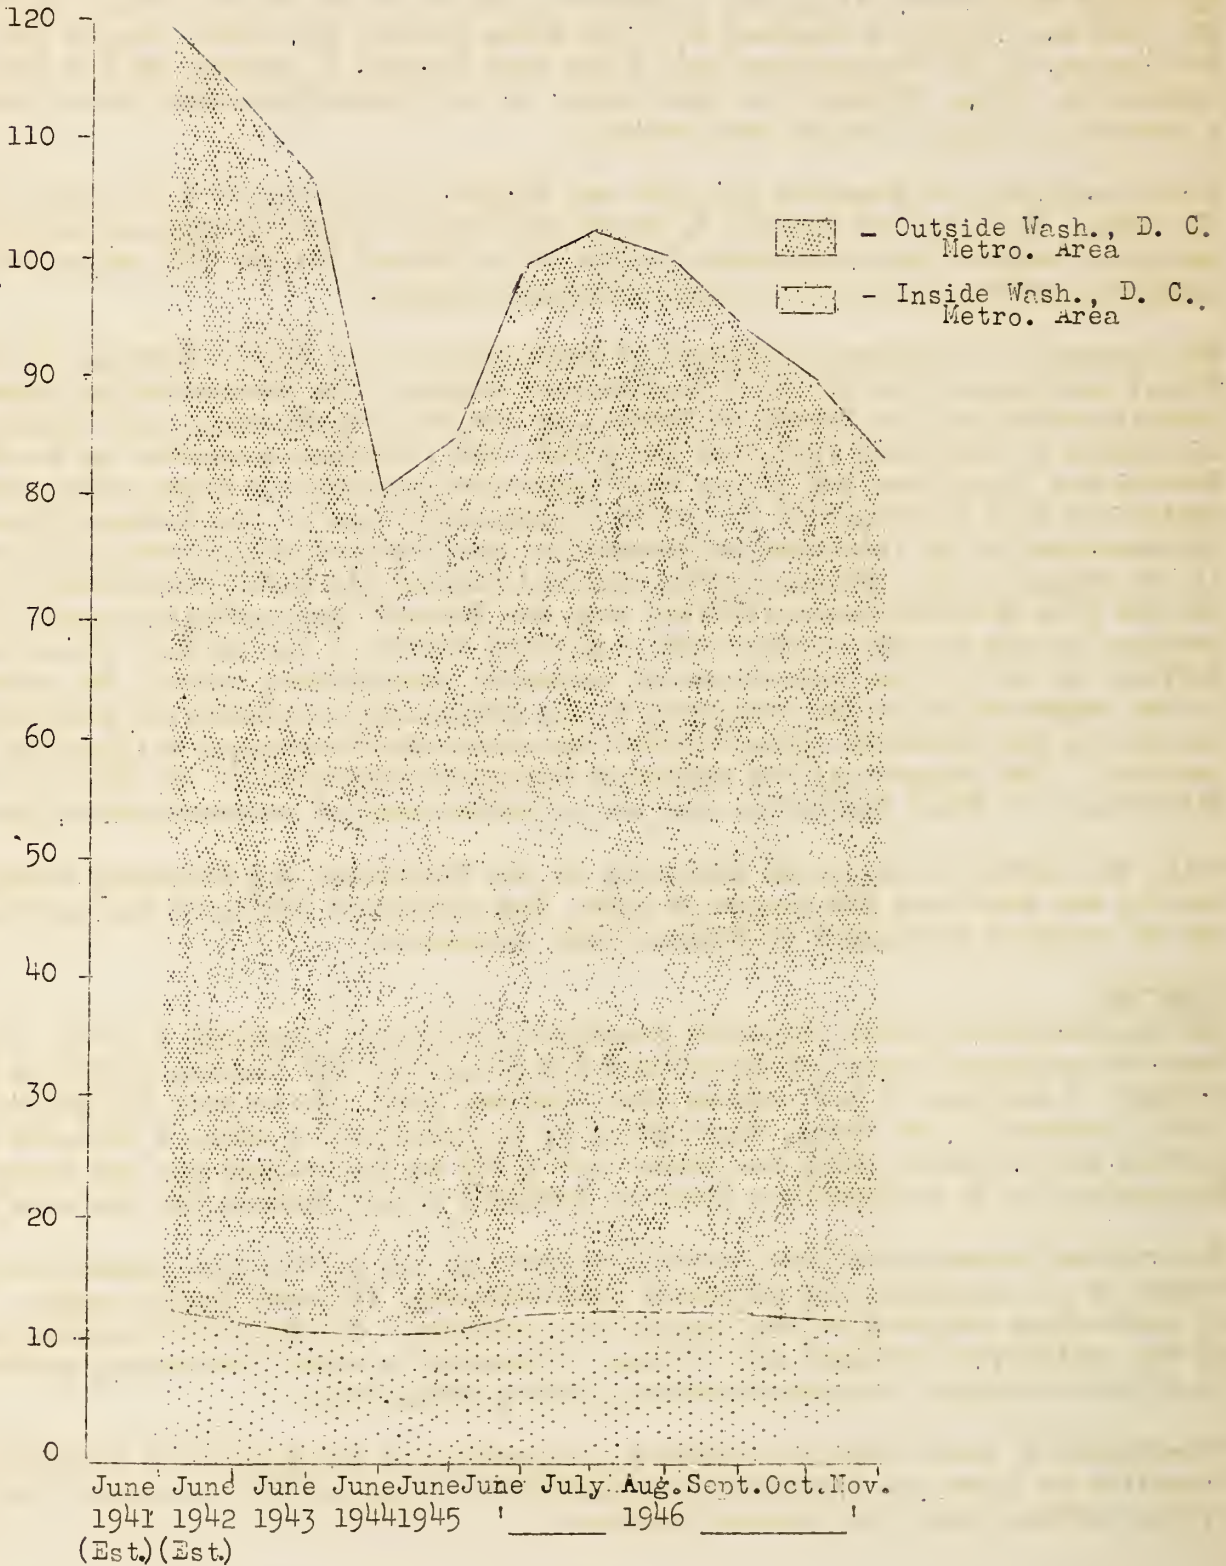

The separations of total full-time personnel, including temporary as well as regular salaried employees, from the Department for November, 1946 totaled 5,495, or 8.5 percent, a decrease of 0.1 percent from October, 1946. There were 312 separations, or 2.7 percent in the Inside Washington, D. C. Metropolitan Area, a decrease of 1.3 percent from October, 1946; and there were 5,183, or 9.8 percent for the Outside Washington, D. C. Metropolitan Area, an increase of 0.2 percent for the same period.

The greater percentage of the separations fell in the termination category and was caused by the expiration of temporary appointments. The next larger number of separations occurred in the resignation category. The specific reasons making up the resignation category are illness, returning to school, accepting positions in private industry, household duties, leaving town, etc.

Separations of total regular full-time personnel from the Department (excluding reduction in force and separations of temporary employees) for November, 1946 was 1,455, representing a 2.5 percent turnover.

COMPARISON OF TOTAL EMPLOYMENT 1/

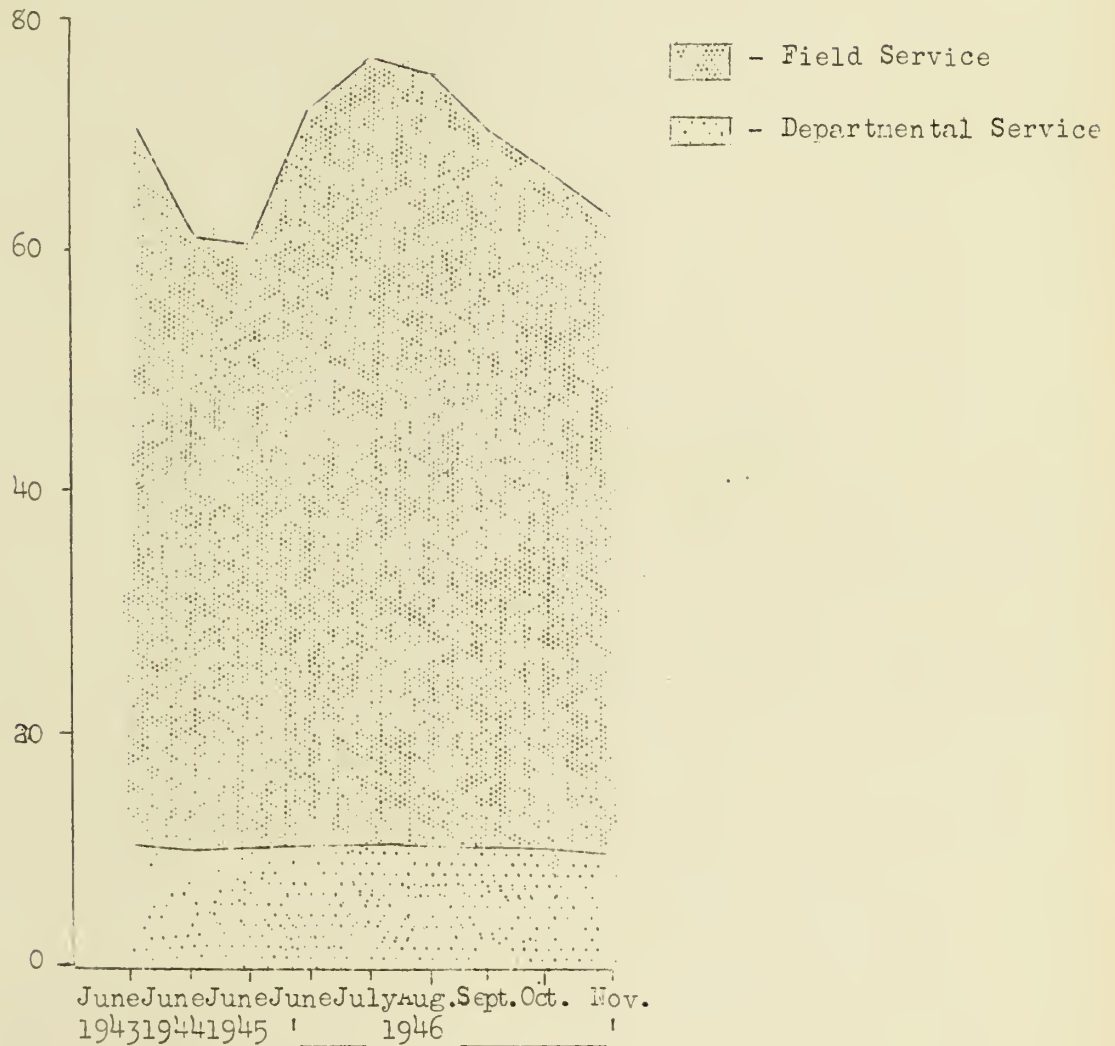

Thousands
of
Employees

1/ Includes employees outside the continental limits of the U. S. and W.O.C. Employees

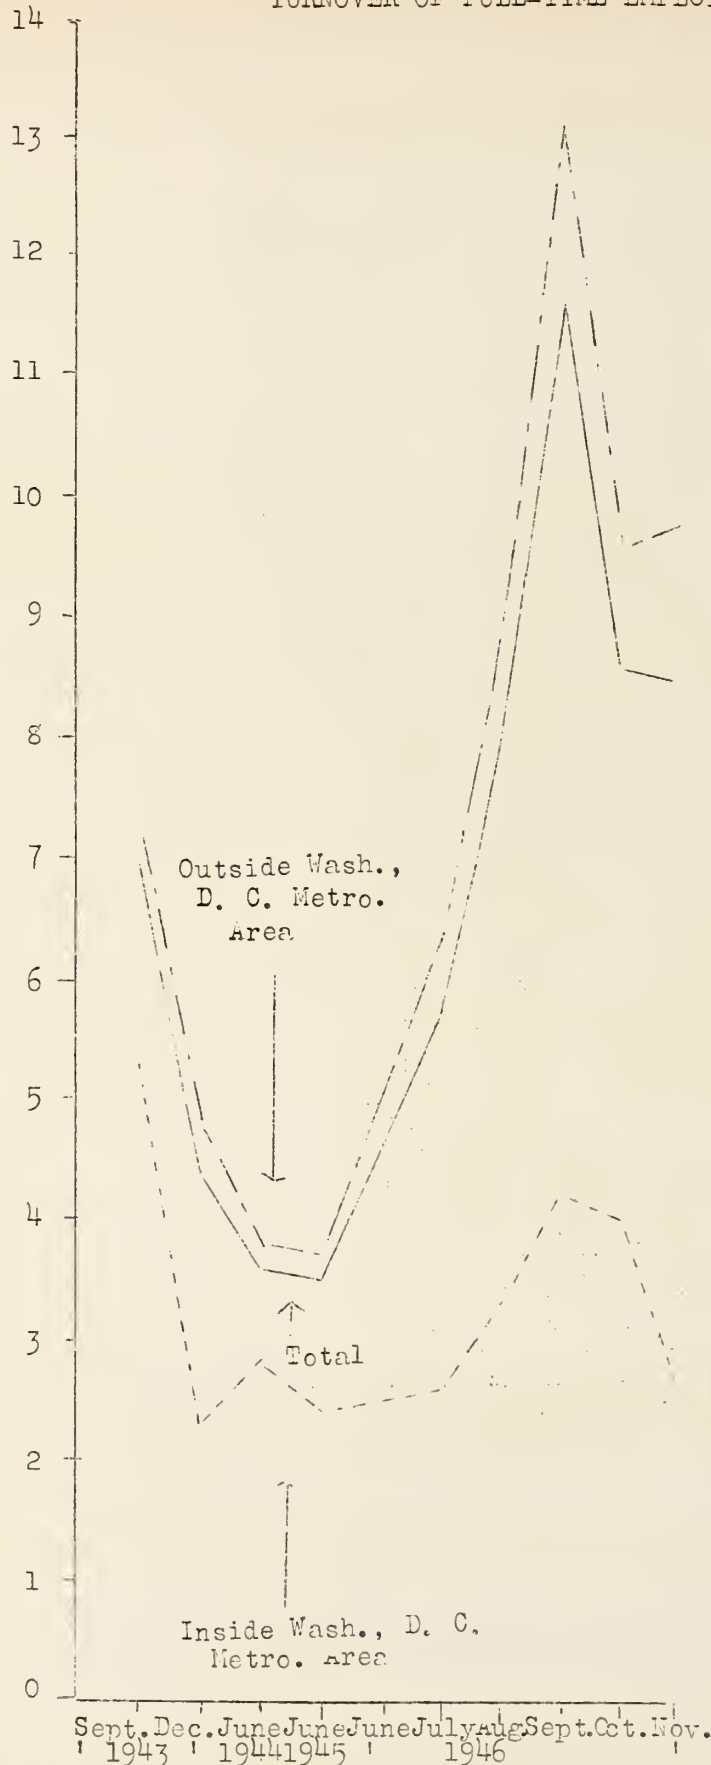

COMPARISON OF FULL-TIME EMPLOYMENT 1/

Thousands
of
Employees

1/ Excludes W.O.C. Employees and employees outside continental limits of the U. S.

Percent

TURNOVER OF FULL-TIME EMPLOYEES 1/

1/ Excludes transfers between reporting units. Employees outside the Continental limits of the U. S. are excluded. Full-time, according to the revised Civil Service Form 3257 includes only regular and temporary employees.

1/ The information for this table was obtained from the journals of personnel actions and represents only a spot check of all the resignations in the Department for the month of Sept.. It will not agree with the resignation figure reported on line 20 of the CS Form 3257.

2/ Reasons making up this category are: Desires Perm. Empl.; To work in Private Ind.; Bus. for Self; Former trade or job.

3/ Includes Ofc Budget & Finance; Ofc of Personnel; Ofc of Plant & Oper.; Work. Cap. Fund; and Imm. Ofc of Sec'y.

DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Salaried employees are those paid on an annual or monthly basis who are appointed or otherwise employed on a regular, indefinite, emergency, temporary or war service basis.
3. Temporary employees are those formally engaged for a specific period of time not to exceed one year.
4. Wage employees are those engaged for regular periods of time whose compensation is computed on a daily, or hourly basis as established by the employing authority or fixed by statute or wage board or other similar authority serving the same purpose.
5. W.A.E. (when actually employed) represents those paid only for the time actually worked.
6. W.O.C. (without compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
7. Persons on terminal leave are those separated from Federal employment for any reason (including those entering upon active duty in the armed forces) who are no longer performing services for the Department of Agriculture although they currently are in pay status as of the end of the month, because of accumulated and accrued leave. (Inapplicable now by Lane Act)
8. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
9. Persons on leave without pay are those currently in a non-payment status as of the end of the month regardless of reason, who have been on such leave or furlough continuously throughout the current month.
10. Washington, D. C., Metropolitan Area, includes the District of Columbia; Alexandria City, Arlington County and parts of Fairfax County, Virginia; parts of Montgomery and Prince Georges Counties, Maryland.

SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORT

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons in a final leave status (terminal leave). (Inapplicable now by Lane Act)
2. All persons on leave without pay during the entire period covered by report.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and include such classes as harvest hands, laborers on forest roads and trail work, emergency fire fighters, workers on insect and plant pest control projects, etc.). The number of casual employees will be reported from time to time when completed reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AA County Committeemen, and county employees other than committeemen, extension agents, FFA cooperatives, Civilian Public Service Assignees, crop reporters, etc.). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

Explanatory Note

EMPLOYMENT IN THE DEPARTMENT OF AGRICULTURE

GENERAL SUMMARY

SECOND QUARTER, FISCAL YEAR, 1947

Full-time employment within the continental limits of the United States on December 31, 1946 was 60,452, a decrease of 9,003 from September 30, 1946. The Inside Washington, D. C. Metropolitan Area was decreased by 472 and the Outside Washington, D. C. Metropolitan Area was decreased by 8,531. The decrease in the Inside Washington, D. C. Metropolitan Area was due mainly to reduction in force and normal turnover. The largest decrease in the Outside Washington, D. C. Metropolitan Area occurred during the month of November and was due mainly to curtailment of seasonal activities in the Forest Service, the Bureau of Entomology and Plant Quarantine and reductions in force in the Production and Marketing Administration to comply with personnel ceilings.

Total employment on December 31, 1946 was 80,819, a decrease of 13,767 from September 30, 1946. The Inside Washington, D. C. Metropolitan Area was decreased by 575 and the Outside Washington, D. C. Metropolitan Area was decreased by 13,192. During this quarter, employment other than full-time decreased by 4,746 and employment outside the continental limits of the United States increased by 69.

During this quarter the Meat Inspection Division was transferred back to the Bureau of Animal Industry from the Production and Marketing Administration and the Emergency Crop and Feed Loan of the Farm Credit Administration and the Farm Security Administration were merged into the Farmers Home Administration in accordance with Public Law 731, 79th Congress.

DECEMBER, 1946

On December 31, 1946, there were 60,452 full-time employees within the continental limits of the United States, a decrease of 2,005 from November 30, 1946. The Inside Washington, D. C. Metropolitan Area carried 11,417, a decrease of 92; and the Outside Washington, D. C. Metropolitan Area showed 49,035, a decrease of 1,913 for the same period.

The decrease in full-time and other than full-time employees in the Forest Service was due to adverse weather conditions which disrupted the construction of roads and trails, and other field activities. The decrease in employment in the Forest Service was also due to the complete liquidation of the Emergency Rubber Project. The decrease in full-time and other than full-time employees in the Production and Marketing Administration was due to curtailment of seasonal activities, reduction in force in order to comply with personnel ceilings and regular turnover.

The increase in other than full-time employees in the Farmers Home Administration was due to the reappointments of non-classified committeemen. The increase in the full-time and other than full-time employees in the Soil Conservation Service represents the filling of existing budgeted vacancies to supply assistance to Soil Conservation Districts.

Total employment on December 31, 1946 was 80,819, a decrease of 2,776 from November 30, 1946. Inside the Washington, D. C. Metropolitan Area there were 11,577, a decrease of 108; and 69,242 for the Outside Washington, D. C. Metropolitan Area, a decrease of 2,668 for the same period. These figures apply to total employment in the Department including employees outside the continental limits of the U. S. and part-time workers as well as those regularly employed.

CASUAL EMPLOYMENT

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of November, 1946, there were 3,306 casual employees in the Department, representing an increase of 795 over the September, 1946 figure. The Forest Service was the only bureau employing Casual personnel during November, 1946.

FEMALE EMPLOYEES

SECOND QUARTER, FISCAL YEAR, 1947

There was a decrease of 1,495 regular full-time female employees in the Department from September 30, 1946. The number of regular full-time female employees, 18,892, on December 31, 1946 represent 31.3 percent of total regular full-time employees, an increase of 1.9 percent over the September 30, 1946 figure.

PERSONNEL TURNOVER

SECOND QUARTER, FISCAL YEAR, 1947

Accessions to regular full-time employees totaled 5,554 during the quarter ending December 31, 1946, excluding transfers between reporting units. There were 283 transfers from other departments and agencies, 4,616 appointments and reemployments, 245 returns from military furlough, and 410 of all other types. Appointments and Reemployments represent 83.1 percent of all accessions to the Department. The Accessions rate of full-time personnel in regular groups for the second quarter of the fiscal year, 1947 was 8.5 percent. This represents a decrease of 14.2 percent from the accession rate of 22.7 percent for the first quarter, fiscal year, 1947.

Separations of regular full-time personnel from the Department amounted to 14,578 during the second quarter and consisted of 7,844 terminations; 3,303 resignations; 34 military furloughs; 944 extended leave without pay, furlough, suspension, war transfers, and leave without pay; and 2,453 of all other types. The separation rate for the same period was 22.4 percent, representing an excess of separations over accessions of 13.9 percent. The rates for the Inside Washington, D. C. Metropolitan Area were: Separations 9.0 percent; and Accessions 4.8 percent; an excess of separations over accessions of 4.2 percent. The rates for the Outside Washington, D. C. Metropolitan Area were: Separations 25.4 percent; Accessions, 9.4 percent, an excess of separations of 16.0 percent. Although this rate is used by the Civil Service Commission and apparently appears high, it is due to the separation of temporary employees and separations by reduction in force.

The turnover rate excluding the separation of temporary personnel and the separation due to reduction in force for the second quarter of the fiscal year 1947 was 6.5 percent; and for the month of December 2.5 percent.

MILITARY FURLOUGHES

The total number of employees serving in the armed forces was 5,086 as of December 31, 1946. This figure includes the female employees serving in the Armed Forces and employees who left to join the Merchant Marine Service. Of the 5,086 serving, 32.5 percent are in the Production and Marketing Administration; 21.9 percent in the Farmers Home Administration; 13.9 percent in the Soil Conservation Service and 11.5 percent in the Forest Service. During the month of December, 1946, 64 employees returned to their positions in the Department. One employee was definitely known to be deceased during the month of December, 1946.

PROMOTIONS

SECOND QUARTER, FISCAL YEAR, 1947

A total of 1,742 grade, or grade and salary promotions, among employees subject to the classification Act of 1923, as amended, and employees in the DA grades, was granted during the second quarter of the fiscal year, 1947. This represents an average of 581 grade or grade and salary promotions for one month.

On the basis of total grade, or grade and salary promotions granted during the quarter, and the average number of employees for the same period, one out of every 38 was recipient of one of the promotions. One out of every 33 in the CAF service received a promotion, as did one out of every 33 in the Professional service, one out of every 60 in the Sub-professional service, one out of every 71 in the CPC service, and one out of every 59 in the group designated as "Not Otherwise Classified".

1/ Excludes employees outside the continental limits of the U.S., and WOC employees
2/ Total accessions for the Department exclude transfers from other reporting units, but such transfers are included in bureau accessions.

3/ Total separations for the Department exclude transfer to other reporting units, but such transfers are included in the bureau separations.
Formula Used: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)
